

## Finding a room in Maastricht Is there a housing shortage for students?

**That depends on the time of year you start your search. In general, the supply of available student rooms in Maastricht can be very limited around July and August, and December and January.**

If you plan to move to Maastricht for your studies, we strongly advise you to find accommodation in or around the city of Maastricht before the start of the academic year. So start your search as early as possible, even in May (if you start your studies in September) or October (if you start in February). To ensure that you don't run into housing issues once the academic year has started.

Besides, it is much better if you have sorted out your accommodation early. This way, you can experience and enjoy the city before your studies begin.

**If you don't succeed in finding accommodation before the start of your academic year, we ask you to reconsider coming to Maastricht. Please know that UM cannot help you because we don't offer student accommodation.**
