

Instructions for Making a "Danish Heart"

1. Print this sheet out and cut out the heart shape from the template below from two different coloured pieces of paper.
2. Fold each heart in half on the fold line and then cut the two (experiment with more if you like) strip lines with the folded peice stopping where the line stops.
3. Start to weave the heart as shown in the steps below.
4. Cut a strip of paper for the handle and glue / sticky tape onto the sides for handles.
