Networking in Health Economics

Welcome

On May 2022, during the Lola Health Economics Study Group (LolaHESG) conference that was held in Maastricht, we launched the **Maastricht Health Economics and Technology Assessment Center** (MaastrichtHETA).

MaastrichtHETA unites academics from Maastricht University (UM) and Maastricht University Medical Center (Maastricht UMC+) and includes about 60 researchers evolved in the field of health economics and health technology assessment. MaastrichtHETA develops and disseminates innovative methodology and knowledge for advancing, promoting and teaching best practices in health economics and health technology assessment.

We are pleased to share our third newsletter, keeping you up to date with all the news and activities that took place in the last months (**between June 2023 and December 2023**). The newsletter includes:

- an introduction of the ISPOR-Student Chapter Board,
- past and upcoming PhD defenses,
- participation at past conferences and upcoming conferences,
- an introduction of new colleagues,
- achievements and new obtained roles,
- our past seminars and planned future activities,
- other upcoming courses,
- a list of publications.

We wish you a good reading and remain at your disposal to bring health economics and technology assessment in your research.

ISPOR STUDENT CHAPTER

As part of the MaastrichtHETA Centre, the ISPOR student chapters provides a platform to connect with colleagues in the field of health economics and outcomes research (HEOR) by organizing various events like workshops, lectures, journal clubs, and a lot more. Feel free to join our activities, meet colleagues and expand your health economics - network.

Follow us to stay informed about our upcoming events and get up-to-date information about current developments and topics in the field. For more information and for the signing up for the ISPOR-SC newsletter, please reach out to ispor-sc@maastrichtuniversity.nl

We are looking forward to meeting you!

PAST PhD DEFENSES

On 12th September 2023, **Nannan Li** successfully defended her PhD thesis on the topic "Osteoporosis, bone fractures, and fracture liaison service: health-related quality of life, clinical and economic outcomes", supervised by Dr. Mickaël Hiligsmann, Dr. Annelies Boonen and Dr. Joop van den Bergh. Nannan continued her journey at Maastricht University as a postdoctoral researcher. Congratulations and good luck in the new position!

On 3rd October 2023, **Jalal Dahham** successfully defended his doctoral dissertation titled 'Economic burden of multiple sclerosis in low- and middle-income countries: a case study from Lebanon', supervised by Prof. Dr. Silvia Evers, Dr. Mickaël Hiligsmann, Dr. Ingrid Kremer and Dr. Rana G. Rizk.

Following the completion of his PhD, Jalal has been actively expanding his health economics research portfolio. He is involved in collaborations with both Maastricht University and the INSPECT-LB Research Group as a researcher. This is in addition to his role as the senior economic advisor at the embassy of the Kingdom of the Netherlands in the State of Qatar.

On 12th January 2023, **Damon Willems** successfully defended his doctoral dissertation titled "Identification of unmet care needs, treatment preferences and health economic implications to optimize disease management outcomes in the field of chronic inflammatory skin diseases", supervised by Prof. Dr. Silvia Evers, Dr. Mickaël Hiligsmann and Dr. Charlotte Beaudart. Damon completed his research as an external PhD as part of a collaboration between Maastricht University and UCB Pharma. We congratulate to this great achievement!

Upcoming PhD DEFENSES

Lena Schnitzler will defend her dissertation “Identifying and capturing intersectoral costs and benefits relating to sexual health”, which was supervised by Prof. Dr. Silvia Evers, Prof. Dr. Tracy Roberts (University of Birmingham) and Dr. Louise Jackson (University of Birmingham). Lena participated as a joint-PhD candidate at Maastricht University and the University of Birmingham. She has already successfully completed the whole dissertation process in Birmingham and will now defend her dissertation at Maastricht University on April 8, 2024 at 16.00. Good luck!

Hoi Yau Chan is currently completing her PhD research in the field of Epilepsy and Health Economics. Her dissertation, entitled “Enhancing Efficiency in Epilepsy Care: A Health Technology Assessment Perspective”, is supervised by Prof. Silvia Evers, Prof. Marian Majoie and Dr. Mickaël Hiligsmann. The defense is planned at 15th of May at 16:00. Good luck!

CONTRIBUTIONS AT PAST CONFERENCES

ISPOR EUROPE COPENHAGEN

With over 5000 attendees, Europe's largest Health Economics and Outcomes Research Conference was held in the beautifully dynamic city of Copenhagen on 12-15th November 2023. The conference saw four of our Chapter members, **Thomas Otten**, **Andrea Fernández Coves**, **Bradley Sugden**, and **Teebah Abu-Zahra**, attend to present their ongoing research. Our members were joined by **Bram Ramaekers**, **Sabine Grimm**, **Willem Witlox**, and **Ron Handels**. The conference provided them with a platform to learn, share, and network with a broad range of stakeholders across academia, the life sciences industry, healthcare providers, patient engagement organisations, policy makers, and regulators.

Andrea Fernández Coves (Poster Presentation): Making MCDA 'Shiny' With an Adaptive Support Tool for Healthcare Decision-Making: An Application in Broad Molecular Testing With R Shiny

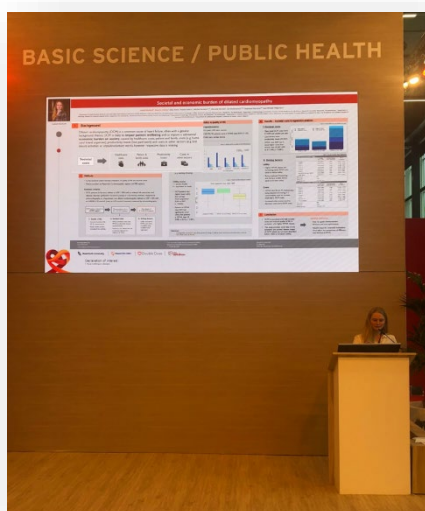

Bradley Sugden (Poster Presentation): Adaptable framework for probabilistic cost-analyses in radiotherapy: Application to proton and photon therapy for lung cancer in the Netherlands

Bram Ramaekers (Breakout session): Use of Joint Models in Health Technology Assessment (HTA) – The Future?

Ron Handels (Poster and Podium Session): Open-Source Model Framework for Health-Economic Evaluation of Early Treatment in Alzheimer's Disease

Teebah Abu-Zahra (Poster Presentation): How can Health Technology Assessment Help in Addressing Challenges in Drug Repurposing? A Conceptual Framework

Thomas Otten (Poster Presentation): Knee-deep in innovation: Valuing hypothetical advances in Total Knee Arthroplasties

ESC CONGRESS AMSTERDAM

Between August 25th - 28th 2023, **Isabell Wiethoff** visited the European Society of Cardiology (ESC) Congress in Amsterdam together with her colleagues from the Double Dose research consortium. Isabell gave a poster pitch presentation about her study "Quality of life and societal costs in patients with dilated cardiomyopathy", which is by now published in the European Heart Journal – Quality of Care and Clinical Outcomes. The study was performed together with her colleague Maurits Sicking, PhD candidate in cardiology at CARIM.

Further, a news article was written to summarize the findings of the burden of disease study (available in Dutch: "Gedilateerde cardiomyopathie verlaagt levenskwaliteit en verhoogt maatschappelijke kosten"), which can be found on the MUMC+ webpage.

UPCOMING CONFERENCES

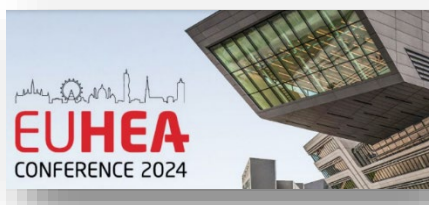

LOLA HESG 2024

You are cordially invited to the 16th edition of the lolaHESG (lowlands Health Economists' Study Group) conference that will take place on 16-17 May 2024. The conference is organised by HERA (Health Economics Research Amsterdam) and held at Landgoed ISVW in Leusden in the Netherlands.

The deadline for abstract submission has been extended to March 4th. You still have the opportunity to submit your abstract for lolaHESG24 on the corresponding website (<https://vu.nl/en/events/2024/lolahesg-2024>).

EUHEA 2024 CONFERENCE

The Call for Abstract ended. Notifications for accepted abstracts will be sent out on 15th March 2024.

The EuHEA Conference 2024 in Vienna will explore how health economics can be approached from different perspectives. Its comprehensive program will feature macro analyses at the health system level, research on the decisions made by key stakeholders, and microeconomic studies on consumption and behaviours of patients and health care providers. By bringing all these perspectives together, the program aims at fostering a holistic understanding of the latest research in the field as well as informing effective, equitable, and sustainable health policies.

EUHEA PHD SUPERVISOR CONGRESS

The Faculty of Health Sciences and Medicine, together with the Center for Health, Policy, and Economics at the University of Lucerne, is proud to host the 11th **EuHEA PhD & Supervisor Conference**, to be held in Lucerne on August 28-30, 2024.

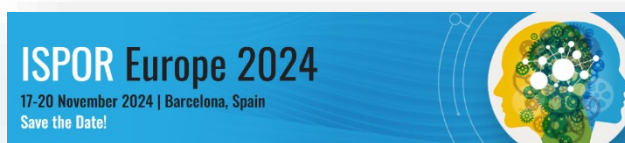

The PhD & Supervisor conference presents a great opportunity for PhD students and early career researchers in the field of health economics to present their ongoing research and receive feedback from colleagues with expertise in their field of study. A specific feature of the conference is its interactive format in which each presented paper will be discussed by another student's supervisor. This format and the friendly and constructive environment make this conference an excellent place to gain new insights, get feedback, and network with peers.

We invite all those who are interested in presenting to submit an abstract until March 15:
<https://cfp.euhea.eu/conf/phd2024>

SAVE THE DATE: ISPOR EUROPE

Join global healthcare leaders as they convene at ISPOR Europe 2024, 17 - 20 November in Barcelona, for discussion and dissemination of the latest trends in healthcare.

Abstract Submission Opens: 28 March

NEW COLLEAGUES

Hello all, I am **Darin Elabbasy** (Arabic دارين)

I am a PhD candidate specializing in Health Economics and Health Technology Assessment within the Health Services Research department. My research focuses on estimating the societal costs and quality of life impact of drug-resistant focal epilepsy on patients, their families, and their surroundings.

Before joining Maastricht University in October 2022, I sharpened my expertise in evidence synthesis and health data analytics at University College Dublin, School of Public Health. There, I designed and created content for blended learning modules on systematic reviews, meta-analysis, and clinical guidelines. My role also involved creating engaging and professional learning materials using Adobe Premiere and designing workshops to enhance student engagement.

In addition to my academic and research pursuits, I have engaged in various roles related to public health and education. My favorite aspect of education is that in the process of attempting to teach others, you also become a learner.

I'm originally from Egypt ☺🇪🇬 and have a great passion for traveling. Should you ever plan a trip to Egypt and find yourself in need of some advice, please don't hesitate to reach out to me.

Hello,

I'd like to take this opportunity to introduce myself since I recently joined CAPHRI in December. I am **Dr Lakshmi Nagendra** and I started at CAPHRI as external PhD student

Last December, prior to this endeavor, I completed my Bachelors in Medicine and surgery (MBBS) and pursued further studies, culminating in a Master's degree in Medicine. My further sub-specialization in endocrinology ignited a profound interest in bone health, prompting me to delve deeper into this field.

Driven by a keen interest in advancing knowledge in fracture prevention, I recently commenced my PhD studies under the guidance of Dr. Mickael Hiligsmann. My research aims to optimize fracture prevention strategies, particularly in the context of India's unique healthcare landscape. I am excited to contribute to this crucial area of healthcare and look forward to the discoveries ahead.

Warm regards,

Lakshmi

ACHIEVEMENTS AND NEW ROLES

UPDATED COST GUIDELINE

"The Dutch National Healthcare Institute has unveiled its latest guideline and costing manual for health economic evaluation, marking a significant stride in advancing healthcare practices.

Launched amidst a symposium in Amsterdam on January 16th, the manual boasts contributions from esteemed experts. Prof. **Dr. Manuela Joore** (KEMTA), a committee member, alongside the noteworthy input from **Prof. Dr. Silvia Evers** and **Dr. Ruben Drost** (both HSR), ensures a comprehensive and well-rounded resource for HTA methodology and unit prices. The guideline and costing manual are available online:

<https://www.zorginstituutnederland.nl/over-ons/publicaties/publicatie/2024/01/16/richtlijn-voor-het-uitvoeren-van-economische-evaluaties-in-de-gezondheidszorg>"

We are pleased to share that Prof. Dr. Leona Hakkaart-van Roijen (Professor in Health Technology Assessment (HTA) in Mental Health Care at Erasmus School of Health Policy & Management) will be giving an online seminar for us on the updated guideline and costing manual for health economic evaluations. Leona was largely involved in the revision of the costing manual. During the meeting, she will report on the revision process and the most important changes in the guideline documents. You are welcome to join!

GUEST SPEAKER INVITATIONS

Dr. Mickaël Hiligsmann was invited as guest speaker:

- at the European Congress of Rheumatology (Milan) for a lecture on patient preference of visual aids for risk communication in June
- at the Summit on vaccination organized at the beautiful island of San Servolo (Venice) end of September (see picture)
- at the French Congress of Rheumatology (Paris) in a session organized by the GRIO (French Research Group on Osteoporosis) in December

NEW GRANT - SECTORPLAN PREVENTION

Dr. Sabine Grimm was among the lucky ones to receive 0.5 FTE from the Sectorplan Prevention to do research on innovative health technology assessment (HTA) methods in the context of prevention. Sabine's idea is that a shift to a preventive, personalized and participatory healthcare system that has the aim of keeping healthcare sustainable and equitable warrants methodological innovation in health technology assessment (HTA). She is developing a research line on HTA methods in personalised prevention that includes going beyond efficiency to include the assessment of additional value criteria such as equity in healthcare policy decisions. Uncertainty is a key problem in the assessment of the efficiency and equity of prevention measures and Sabine continues to develop uncertainty assessment methods such as value of information, implementation and heterogeneity.

REPORTING STANDARDS FOR VALUE OF INFORMATION (VOI) ANALYSIS

It was about time! Finally, reporting standards are available for value of information (VOI) analysis. A group of researchers including **Dr. Sabine Grimm** reviewed CHEERS 2022 in the context of VOI analyses, included 20 of the original CHEERS checklist items, adapted eight existing items and included six new items specific to VOI. It is particularly noteworthy that one of the new items ('Evidence base') recommends the discussion and handling of potential risk of bias and heterogeneity. See for yourself!

PAST MAASTRICHT HETA / ISPOR-SC ACTIVITIES

- September 19th
MaastrichtHETA/ISPOR-SC researcher day with Jalal Dahham (external PhD, HSR), Jan Dyczmons (Düsseldorf) and Nizar Alsubahi (HSR).
- November 7th
Seminar - The ASCCA model & the COVID-19 and Cancer Global Modelling Consortium (CCGMC) - with Veerle Coupé (associate professor at the department of Epidemiology and Biostatistics of the VU Medical Centre, Amsterdam).
- November 21st
Maastricht ISPOR SC - PhD Café – The networking event.

UPCOMING MAASTRICHT HETA/ ISPOR-SC ACTIVITIES

- **Currently ongoing:** R workshop series with Bram Ramaekers about economic modelling:
 - 18th January (DUB30, room 0.051)
 - 22nd February (DUB30, room 0.047)
 - 21st March (DUB30, room 0.051)
 - 18th April (DUB30, room 0.051)
- April 4th between 12:00 – 13:00 (Online)
Online seminar on the updated guideline for health economic evaluations with Leona Hakkaart-van Roijen Roijen (Professor in Health Technology Assessment (HTA) in Mental Health Care at Erasmus School of Health Policy & Management)
- July 4th between 9:00 – approx. 12:00 (Hybrid: DUB 30, room 0.051 and online)
MaastrichtHETA/ISPOR-SC Researcher Day – incl HPIM students

OTHER UPCOMING COURSES

SALZBURG MAASTRICHT UNIVERSITY SEMINAR IN ECONOMIC EVALUATION IN HEALTHCARE

The Care and Public Health Research Institute (CAPHRI), the Association of Schools of Public Health in the European Region (ASPHER) and The Open Medical Institute (OMI)

have joined forces to build a new Public Health Academy. Within this partnership, several courses are offered to CAPHRI PhD candidates. From Sunday, November 24 to Saturday, November 30, 2024 the course '**Economic Evaluation in Healthcare**' will take place.

Outline course: This is a one-week course for healthcare researchers and healthcare professionals who want to understand the basics of economic evaluation and its application to health technology assessment and decision-making. Economic evaluation tools are largely accepted as indispensable instruments in the evaluation of healthcare goods, services, policy and system reforms. These tools are of critical importance in decision-making for developing evidence-informed policies pertaining to all aspects of resource allocation. Such tools provide insights on how to improve efficiency and how to protect the quality and equity of both healthcare financing and provision.

Course leaders: Silvia Evers, Professor of Public Health Technology Assessment at Maastricht University & Milena Pavlova, Professor of Health Economics and Equity at Maastricht University.

Location: The course will take place at the Open Medical Institute, Schloss Arenberg, Salzburg, Austria. The course is open to 8 CAPHRI PhD candidates (first come, first serve).

Registration: To register, please send an email to caphri-phdcourses@maastrichtuniversity.nl. Remember to consult your supervisor before registering.

Fee: €300. Including dinners and hotel accommodation. For your travel expenses, there will be a reimbursement up to €200 (after submission of original receipts).

ENHANCE YOUR HEALTH ECONOMIC EVALUATION SKILLS IN OUR MARCH & APRIL 2024 COURSE

In March & April 2024, we are running our popular course '**Health Technology Assessment (HTA and Health Economic Evaluation (EE))**' as part of the master's programme in Epidemiology again. This crash course is open to PhD students, medical doctors, and graduates from medical or health sciences studies from universities or universities of applied sciences who wish to enhance their knowledge HTA/EE. The objective of course is to learn about the theoretical foundation of HTA and more specifically EE. This course combines a deepening understanding of theoretical concepts with hands-on training in the basic elements of an economic evaluation with a strong link to practice.

Course dates: Fridays 15, 22, 28 March 2024. Handing in assignments on the 5th of April.

Location: Maastricht University (Participants will receive a certificate from UM after course completion)

Course coordinator: Dr. Ghislaine van Mastrigt; Faculty: Prof. Dr. Manuela Joore, Prof dr. Silvia Evers, Dr. Mickaël Hilgsmann, Dr. Sabina Grimm, Dr. Bram Ramaekers, Dr. Willem Witlox and Dr. Ghislaine van Mastrigt

For more information and to register, please email g.vanmastrigt@maastrichtuniversity.nl or visit our website for more details & and prices.

KEMTA MASTER CLASSES 2024

KEMTA regularly organises master classes for staff interested in research methods. The master classes provide concise insights into a range of topics, from the basics of research design, to statistics and topics such as early HTA.

All Masterclasses will take place from 16:30 - 18:00 (exact location will be communicated before class). For registrations, additional information or suggestions for new masterclass topics, please contact Irene Vrancken (irene.vrancken@mumc.nl).

Upcoming classes:

- 14th March: Het meten van patiënt voorkeuren in de klinische praktijk (Brigitte Essers)
- 16th April: Missing data (Lloyd Brandts)
- 21st May: Systematic reviews (Andrea Peeters)
- 27th June: Herziening Nederlandse richtlijn economische evaluatie (Manuela Joore/Merel Kimman)
- 19th September: Predictie (Sander van Kuijk)
- 15th October: Kwalitatief onderzoek (Daisy De Bruijn/Monique Bessems)
- 21th November: Trial-based economic evaluation (Brigitte Essers)
- 17th December: Scientific Writing (Andrea Fernandez Covas)
