4. Enrolment as an external student shall only be possible for a bachelor's or initial master's programme, and then only where the Executive Board is of the opinion that this does not go against the nature or interests of the education of the programme.

Article 3 Refusal of enrolment

1. Individuals who previously received negative Binding Study Advice in accordance with Article 7.8b WHW may not enrol in that programme nor other bachelor's programmes that share the same first phase of 60 ECTS as long as the term stated in the EER of the programme has not yet passed since the negative binding study advice was issued and any appeal by the student on the grounds of excessive severity has been rejected by the relevant Faculty Board.

Thus, to complete a programme of 60 ECTS or more starting on 1 February 2023, re-enrolment as of 1 September 2023 for the entirety of the subsequent academic year 2023/24 shall be required, even if the student expects to graduate earlier. Students are obliged to pay the tuition fees for the entire academic year in advance.
4. Only in cases of evident hardship as referred to in Article 41 may the director of the SSC decide to permit deviations from the enrolment periods stated in paragraphs 2 and 3 and permit enrolment in a bachelor's or initial master's programme at another time.
5. If and only if enrolment outside the stated enrolment periods is permitted on the grounds of paragraph 4, enrolment with retroactive effect is possible up to the first day of the month in which the student enrolled, with the exception of the month of October. In the case of enrolment in October, enrolment with retroactive

effect up to the first day of the month is not permitted; instead, the enrolment will take effect on 1 November.

6. As the pre-master's programmes vary in terms of the number of ECTS to be obtained, they have different enrolment commencement dates. These dates are indicated on the UM website.

As pre-master's students and students of the master's programmes for professionals do not pay tuition fees but rather a separate study fee, they shall not receive a BBC.
3. Students at UM shall use the UM card to prove their identity. This card shall only be legally valid in combination with a valid certificate of enrolment at UM in a specific programme in the current academic year.
4. The UM card and the certificate of enrolment are the property of UM.
5. Students must inform the SSC immediately if their UM card is lost or stolen. In such cases, a new card may be requested via the UM website (via Facility Services). The student will be charged for the replacement of this card.
6. If a student loses his/her certificate of enrolment, a new certificate may be requested via the SSC. The student will be required to produce a valid ID to obtain this new certificate. The UM card is considered a valid ID in such cases.

Article 6 Admission to a bachelor's programme

1. Individuals whom the Executive Board believes have fulfilled the prior education requirements laid down in Articles 7.23a up to and including 7.30 of the WHW and any further prior education requirements shall be admissible to a bachelor's programme at UM.
2. The bachelor's programmes in Medicine, International Business and Psychology are subject to a cap on student numbers pursuant to Article 7.53 or 7.56 of the WHW. Admission to one of these restricted intake programmes shall, without prejudice to the provisions of paragraph 1, be determined in part on the basis of a selection procedure.
3. The qualitative selection criteria and the selection procedure for the restricted intake programmes at UM have been laid down in the "Regulations on the selection for restricted intake bachelor's programme at Maastricht University in the 2022/23 academic year" (*Reglement selectie voor numerous fixus bacheloropleiding studiejaar 2022-2023*), which is available on the UM website: www.maastrichtuniversity.nl
4. Where individuals have not previously been enrolled for the bachelor's programme in Medicine, International Business or Psychology at UM, it shall be possible for them to be admitted to year 2 of these programmes with the permission of the Faculty Board, providing the programmes have sufficient capacity and the candidates' prior education has demonstrably provided them with knowledge, understanding and skills equivalent to the knowledge, understanding and skills needed to pass year 1 of the programme concerned.
5. There is a special selection procedure for the bachelor's programme in Liberal Arts and Sciences (at University College Maastricht, University College Venlo and the

Maastricht Science Programme), the bachelor's programme in Economics and Business Economics and the bachelor's programme in Global Studies. Students who wish to enrol in one of these programmes are required to have participated successfully in this selection procedure.

Article 7 Admission to an initial master's programme

1. Individuals who, in accordance with Articles 7.30b to 7.30e of the WHW, hold a bachelor's degree from a Dutch university or an equivalent foreign certificate, or individuals whom the Executive Board believes to possess knowledge, insight and skills equivalent to the level of a bachelor's degree from a Dutch university and who meet any additional, programme-specific qualitative admission requirements, shall be admissible to an initial master's programme at UM.
2. Successful completion of a bachelor's programme at UM entitles the student to be directly admitted to at least one master's programme at UM.
3. A number of initial master's programmes at UM have a limited enrolment capacity. Without prejudice to the provisions of paragraph 1, students shall be admitted to these programmes partly by means of a selection procedure involving qualitative admission requirements, as indicated in the EER of the relevant master's programme on the UM website.
4. For admission to an initial master's programme at UM following successful completion of a UM pre-master's, see the provisions of Article 8 paragraph 3.

Article 8 Pre-master's

1. The conditions for admission to UM's pre-master's programmes are listed on the UM website. See Appendix IV for an overview of the pre-master's offered by UM.
2. Participants in a pre-master's programme shall be registered at UM as bachelor's students, and as such are eligible for student finance from the Dutch Government if and insofar as they meet the other conditions applicable to student finance.
3. Successful completion of a pre-master's programme at UM does not entitle students to a degree or certificate in the sense of Article 7.11 of the WHW. Instead, they shall receive a certificate stating the name of the master's programme to which the successfully completed pre-master's programme automatically provides admission. If this master's programme has a limited enrolment capacity in the sense of Article 7 paragraph 3, the selection criteria and mandatory selection procedures established for the master's programme still apply. Graduates of a UM pre-master's who are not selected during this procedure will be offered one or more alternative initial master's programmes at UM that do not involve a further selection procedure and to which they can thus be admitted.

Article 9 Joint bachelor's or initial master's programmes

1. UM provides various bachelor's and initial master's programmes, or specialisations within those programmes, in collaboration with one or more institutes for higher education in the Netherlands or abroad. An overview of these joint programmes and specialisations can be found in Appendix V.
2. If the joint programme or specialisation involves one or more exclusively Dutch institutions, it is considered a joint degree and, on completion of the programme, the student shall receive a joint certificate bearing the name of the institutions that provided the programme or specialisation. The institution at which the student is enrolled for the joint degree shall ensure that the student is also enrolled at the other Dutch institution(s).
3. If the joint programme or specialisation is partly provided by one or more foreign institutes for higher education, on completion of the programme, the student shall receive a joint, double or multiple bachelor's or master's degree, in accordance

with the number of participating institutions. UM can oblige the student of a joint programme or specialisation to enrol continuously during the entire programme or specialisation at UM.

4. The agreements between the (foreign) higher education institution(s) offering a joint programme or specialisation are set down in a contract, which specifies at least the following:
 - a. the content of the joint programme
 - b. the different educational activities of each institution
 - c. the distribution of degrees
 - d. the enrolment at one or more involved institution(s)
 - e. the tuition fees owed to the participating higher education institutions by the joint programme student, as well as the right to reimbursement of tuition fees if the student deregisters before finishing the programme
 - f. the requirement that the student meets, at a minimum, the statutory admission requirements applicable in the Netherlands for the study programme or specialisation when the joint programme/specialisation is jointly offered by one or more foreign higher education institutions.
5. The board of the institution is authorised to set the tuition fee for a joint programme or specialisation at a lower level (including zero) than the student would owe if UM alone provided the programme or specialisation.

Article 10 Enrolment of subsidiary and exchange students

1. An individual who is enrolled as a student in a bachelor's or an initial master's programme at a different Dutch higher education institution and who participates in educational activities at UM with the permission of the UM Board of Examiners shall be deemed a subsidiary student. Subsidiary students can be admitted upon submitting a BBC from the other institution. Subsidiary students are enrolled at such at UM and are not required to pay tuition fees to UM.
2. Subsidiary students shall be granted only those rights associated with the educational activity in which they are participating in accordance with paragraph 1.
3. Subsidiary students shall not be entitled to a degree or certificate from UM for the programme of which the course they have attended is part. The exam marks obtained shall be shared with the other Dutch higher education institution where the student is following a bachelor's or initial master's degree.
4. An individual who is enrolled in a study programme at a university abroad and who participates in one or more educational activities at UM under a signed exchange contract between UM and the relevant foreign university shall be deemed an exchange student. Exchange students are admitted on the basis of a statement from the foreign university confirming and approving the exchange. Exchange students are enrolled as such at UM and are not required to pay tuition fees to UM. The provisions of paragraphs 2 and 3 that apply to subsidiary students shall apply accordingly to exchange students.

Article 11 Master's programmes for professionals

1. The NVAO-accredited master's programmes for professionals offered at UM are listed in Appendix VI.
2. The EER of the master's programmes for professionals indicate how and under what conditions students can be admitted.
3. Students of the master's programmes for professionals are registered as such at UM and may only participate in the educational activities of the relevant programme.
4. Students of the master's programmes for professionals do not pay tuition fees, but rather a study fee that depends on the scope of the professional master's

programme. This fee is set by the relevant faculty board and listed on the UM website.

5. The board of the faculty offering the professional master's programme decides whether to offer the option to pay the study fee in instalments.
5. On successfully completing a professional master's programme, the student receives a degree certificate from UM in the sense of Article 7.10a, paragraph 1 of the WHW. Their enrolment details and exam results shall be submitted to ROD HO for inclusion in the National Diploma Register (*Landelijk Diplomaregister*).

Chapter II Enrolment procedure and tuition fees, examination fees or study fees

1 Enrolment conditions

Article 12 Timely enrolment in the programme

1. Proper enrolment in a bachelor's, pre-master's, initial master's or professional master's programme at UM requires that students register on time via Studielink each academic year.
2. The enrolment deadlines for bachelor's, pre-master's and master's programmes starting on 1 September 2022 or 1 February 2023 differ per programme, and are partly determined by whether or not they have a limited enrolment capacity or a selection procedure. The enrolment deadlines for new students may also differ from those for students who are re-enrolling in a programme. The enrolment deadlines for the academic year 2022/23 are listed for each programme on the UM website.
3. Because UM has to apply for residence permits for the purposes of study for prospective students from non-EU/EEA countries, the enrolment deadlines for these students when enrolling for the first time are earlier than those for prospective EU/EEA students and Swiss students.
4. For the bachelor's programmes in Medicine, International Business and Psychology, students enrolling for the first time must accept the certificate of admission sent to them by Studielink on or after 15 April 2022 within two weeks after the sending date. A certificate of admission that has not been accepted by the applicant via Studielink within two weeks after the sending date shall expire. The student's request to enrol in one of the study programmes referred to in this paragraph shall be denied if a certificate of admission is not issued before 12 September 2022 and/or is not accepted by the student in a timely manner.

Article 13 Timely submission of documents required for enrolment

1. In the event of first-time enrolment in a UM programme starting on 1 September 2022 or 1 February 2023, the student must submit, before 31 August 2022 or 31 January 2023, respectively, at a minimum, the following documents or information:
 - a. an original, certified copy of the diploma/degree certificate that, pursuant to the WHW, renders the holder admissible to the desired study programme, as well as the accompanying grades transcript; or a digital copy of the diploma and accompanying grades transcript providing that these are furnished with a digital signature and can be verified for authenticity or are submitted to UM directly by the education institution that provided the prior education. NB: Applicants whose prior education did not take place in an EU/EEA country must submit their diplomas/degree certificates and grades transcripts immediately after enrolling, or in any event before the relevant enrolment deadline as referred to in Article 12 paragraph 3, otherwise their enrolment shall be denied. This tightened deadline for the latter category of students is necessary due to the additional time required to assess their diplomas and apply for a visa.
 - b. proof of proficiency in Dutch and/or English in accordance with the **language requirement(s)** stipulated on the UM website for the programme in question.
 - c. documents that demonstrate that any **deficiencies** have been eliminated on time if the prospective student does not, on the basis of the submitted documents, meet the prior education requirements as referred to in Article 7.25 WHW for admission to the desired programme. The prior education

requirements, applicable deadlines and opportunities for extension are indicated on the UM website for each programme.

- d. a copy of the **passport or identity card** valid at the start of the programme on 1 September 2022 or 1 February 2023. This applies only to applicants not already registered with a Dutch municipality (and thus not recorded in the national BRP).
- e. proof of:
 - lawful residence in the Netherlands by means of a copy of the residence permit issued by the Ministry of Justice, or
 - lawful residence in Belgium, Germany or Luxembourg, together with proof of municipal registration in the country concerned. These applicants are also required to submit written confirmation that they will not live in the Netherlands during their study programme.

This applies only to adult applicants who are not nationals of the EU/EEA or Switzerland.

- f. a statement drawn up by UM and signed by the student in which the student is alerted to and declares that he/she is aware of UM's obligation to de-register him/her from the IND in the event of termination of enrolment or insufficient study progress as referred to in Articles 5.5 and 5.6 of the Code of Conduct for International Students in Higher Education. This obligation applies only to applicants who are not nationals of the EU/EEA or Switzerland and who live or shall live in the Netherlands on a Dutch residence permit with study as the purpose of stay. The student shall be required to re-sign this statement every academic year.
 - g. a digital (passport) photo for the UM card that meets the formal requirements specified on the UM website.
2. UM retains the right to verify the submitted documents and information with the responsible institution.
 3. Prospective students must respond promptly to requests to finalise their enrolment or re-enrolment. In the event that one or more documents or details indicated in this article are missing from the application at the start of the programme, UM will not enrol or re-enrol the student and may deny the student access to UM's facilities by means of an 'administrative hold'. If on 1 September 2022 or 1 February 2023, respectively, UM has not received the requested certificates from the required prior education or proof of legal residence, enrolment in the programme shall be denied.
 4. UM shall process the data provided by students in accordance with the relevant privacy legislation.

Article 14 Timely payment of tuition fees or study fees

1. 2.4 Reduction, exemption, imposition and payment of tuition fees, examination fees and study fees

Article 29 Reduction of tuition fee for enrolment during the academic year

1. Students will only be charged part of the applicable statutory or institutional tuition fee if they are permitted to enrol, by way of exception and pursuant to Article 4 paragraphs 4 and 5, during (i.e. after the start of) the academic year. In this case, the tuition fees will be calculated based on the number of remaining months in the academic year. This reduction in tuition fees shall be without prejudice to any obligation to pay damages on the grounds of Article 40.
2. External students, who pay examination fees, are not eligible for a reduction of these fees when enrolling after the start of the academic year.

Article 30 Reduction or exemption from statutory tuition fee for students following programmes simultaneously or related to a board position

1. Students who according to the ROD HO records have not obtained a bachelor's or master's degree since 1991, who are enrolled in a bachelor's or initial master's programme at UM or another higher education institution, and who wish to enrol at UM in a second and/or third programme at UM or another funded institution (with the exception of the Open University) are, on the basis of paying for the first UM enrolment or on the basis of an original BBC from the other institution (see Article 14 paragraph 5), exempt from paying the statutory tuition fee to UM for that second and/or third programme unless the amount of the tuition fee paid or owing for the first programme is lower than the full statutory tuition fee. In the latter case, the student must pay UM the difference between the two amounts.
2. If the latter enrolment at UM, as referred to in paragraph 1, concerns a study programme with a high statutory tuition fee, the student remains obliged to pay the additional fee for small-scale and intensive education as stipulated in Articles 20 and 21.
3. The second sentence of paragraph 1 shall not apply if, in accordance with the provisions of Article 17 paragraph 1, a student is entitled to pay the low statutory tuition fee, with no surcharge for small-scale and intensive education (see Articles 20 and 21), for both or more simultaneous enrolments at UM.
4. Students who follow a publicly funded programme and are required to pay a course fee in accordance with the Tuition and Course Fees Act and who, instead of or in addition to this programme, also wish to enrol in another initial programme at UM during the same academic year shall pay the difference between the amount already paid and the relevant statutory tuition fee to be paid at the publicly funded institution for the enrolment at UM. If the relevant statutory tuition fee is lower than the amount already paid in course fees, these students will be exempt from paying the tuition fee at UM. Paragraph 2 shall apply accordingly.
5. Students who enrol in a pre-master's programme at UM and who are already following a bachelor's or initial master's programme at a higher education institution in the Netherlands for which they pay the statutory tuition fee are, on the basis of submitting to UM a BBC from the other institution, exempt from paying to UM the study fee for the pre-master's programme.
6. Students who fail to meet the conditions outlined in paragraphs 1 to 5 above shall not be eligible for a reduction or exemption from the tuition fee based on their enrolment in multiple programmes.
7. Students who make a claim to eligibility for the statutory tuition fee on the

grounds of Article 16 paragraph 2 (second simultaneous study programme deemed by the CROHO to be in the field of healthcare or teaching) or Article 25 or 26 (institutional tuition fee to the amount of the statutory tuition fee) are not exempt from paying the relevant tuition fee for another simultaneous enrolment as referred to in Articles 16 to 21.

8. Students as described in Article 16 paragraph 1 who are following more than one programme and who during the academic year successfully complete one of those programmes shall pay the applicable statutory tuition fee for the remainder of the academic year for the other programme they are still following. The amount due shall be calculated based on the number of remaining months in the academic year.
9. Students who hold a full-time position as a board member and whose application for exemption from the applicable statutory tuition fee based on the UM 'Regulations on Exemption from statutory tuition fees related to a board position' (*Regeling Vrijstelling wettelijk collegegeld in verband met bestuursfunctie*) has been honoured by the Executive Board for the academic year 2022/23 shall be exempted from paying the statutory tuition fee for 2022/23.

Article 31 Imposition and payment of tuition fees, examination fees or study fees

1. The applicable tuition fee, examination fee or study fee shall be determined on the basis of the submitted documents referred to in Article 13 and the information from the ROD HO on degrees previously obtained by the student.
2. If at any time during the academic year it is established that the tuition fee or study fee for that academic year was incorrectly determined and a student was undercharged, s/he must immediately pay the difference.
3. If at any time during the academic year it is established that the tuition fee or study fee for that academic year was incorrectly determined and a student was overcharged, the difference will be used to cover any other outstanding charges that the student owes to UM or reimbursed by UM as soon as possible.
4. Without prejudice to the provisions of paragraphs 6 and 7 of this article and Article 28 paragraph 4, payment of the tuition fee or study fee shall, prior to the enrolment for (the rest of²) the academic year 2022/23, be effected by way of:
 - a. a lump-sum bank transfer of the tuition fees (online if possible). UM covers the associated transaction costs only if the tuition fees are paid online. Online payment will not yet be fully possible for the academic year 2022/23.
 - b. a lump-sum direct debit in euros from a SEPA bank account, authorised by way of a digital authorisation.
 - c. direct debits in euros from a SEPA bank account, authorised by way of a digital authorisation for collection of the tuition fees in eight equal instalments for enrolment as of 1 September 2022 or four equal instalments for enrolment as of 1 February 2023. The dates for the direct debits of each instalment are listed on the UM website.
5. By authorising the direct debit(s) of the tuition fee or study fee, the student/account holder agrees to pay the full, applicable tuition fee or study fee for the academic year 2022/23 in accordance with Articles 16 to 30 in combination with the fee stated in Appendix I.
6. Students who are nationals of a non-EU/EEA country, who are enrolling at UM for the first time, and for whom UM is obliged to apply for a residence permit for the purposes of study are required by the IND to have paid the tuition fee or study fee owed for the academic year 2022/23 (including the required maintenance allowance) in a lump-sum payment before UM can apply on the student's behalf

² For enrolments as of 1 February 2023.

for the residence permit for the purposes of study. For students for whom UM is obliged to apply for a residence permit for the purposes of study, it is not possible to authorise payment of the tuition fee or study fee via direct-debit instalments.

7. Students for whom UM is obliged to apply for a residence permit for the purposes of study and who enrol in a study programme starting on 1 February 2023 shall, pursuant to the IND visa condition stipulated in paragraph 6, in effect pay a portion of the tuition fees for the academic year 2023/24 in advance. Because all students are obliged to pay the tuition fees owed until the end of the academic year in advance, even if they expect to graduate earlier, those who hold a residence permit for the purposes of study and started on 1 February 2023 shall, when re-enrolling for the academic year 2023/24, be obliged to pay the difference up to the institutional tuition fee for their study programme for the academic year 2023/24. This additional payment for the academic year 2023/24 may be made in instalments. See also Article 4 paragraph 3.
8. Payment of the examination fee shall be effected by transferring the amount due in a single payment to the bank account indicated by the SSC under the name of UM. The external student shall bear all corresponding collection costs incurred.
9. The authorisation for the automatic debiting of tuition fees may not be revoked during the course of the academic year. If the account from which the direct debits are withdrawn is closed, the student must immediately contact the finance department (tuitionfeepayment@maastrichtuniversity.nl) to provide the new account number to which the authorisation shall continue to apply. If applicable, the student shall submit a new written statement as referred to in Article 14 paragraph 3.
10. Where payment is effected in the manner indicated in paragraph 4c, a one-off amount of €24 for administration costs will be added to the first instalment.
11. If the tuition fee owed (including additional costs) or part of the tuition fee has not (yet) been paid after the last scheduled instalment as referred to in paragraph 4c, no degree certificate shall be awarded to the student.

Article 32 Procedure in the event of payment arrears of the tuition fees or study fees

1. If payment of the tuition fee or study fee instalments is in arrears (see Article 31 paragraph 4 sub c), the following warning procedure shall be initiated:
 - a. a first reminder is sent to the student's personal email address (if known to UM) or to his/her UM student account (if the personal address is not known to UM) giving notice that the outstanding amount is due within 14 days. The reminder shall also indicate that failure to meet this deadline will result in the student's UM card and access to Canvas, the Student Portal and all other digital facilities at UM being blocked (meaning, for example, that the student will no longer be able to register for courses and exams) and that in that case the outstanding (instalment) amount will be increased by €19.50 in administration fees.
 - b. if payment is not forthcoming after the first reminder, a second reminder is sent to the student's personal email address or UM student account (if the personal address is not known to UM) requesting payment of the outstanding amount (including administration fees) and giving notice that, if payment is not forthcoming within 14 days, the de-registration procedure in Article 35 will be started.
2. If a direct debit is reversed by the bank at the request of the bank account holder, UM will, without prior notice, block the UM card of the student and his/her access to Canvas, the Student Portal and all other digital facilities of UM as outlined in paragraph 1a. A reminder is then sent to the student's personal email address (if known to UM) or UM student account (if the personal address is not known to UM) giving notice that if payment of the outstanding amount (including €19.50 in

administration fees for each unpaid instalment) is not forthcoming within 14 days, the de-registration procedure in Article 35 will be started.

3 Termination of enrolment and restitution of tuition fees, examination fees or study fees

Article 33 Termination of enrolment by operation of law or at the student's request

1. The academic year 2022/23 runs from 1 September 2022 to 31 August 2023. Enrolment as a student as of 1 September 2022 or 1 February 2023 and interim enrolment pursuant to Article 4 paragraph 4 for the academic year 2022/23 shall end by law on 31 August 2023.
2. Except in the situations referred to in Articles 35, 36 or 37, a student's enrolment may only be terminated in the course of the academic year as referred to in paragraph 1 at his/her request. The enrolment shall be terminated with effect from the month following the month in which the student requested the termination of enrolment. An enrolment cannot be terminated at the student's request with retroactive effect.
3. If a student does not terminate his/her enrolment via Studielink after graduation, the enrolment shall as of the graduation date be regarded as continued enrolment in the same study programme for the academic year 2022/23, and the student shall be charged the applicable tuition fee for as long as he/she remains enrolled.
4. The student submits the request to terminate his/her enrolment during the course of the academic year via Studielink. The student must also request a refund of the overpaid tuition fees or study fee via Studielink.
5. A student's request via Studielink to terminate his/her enrolment on the grounds of graduation shall not be processed if the student has not yet completed all examination requirements. The enrolment shall be terminated as of the first day of the month following the graduation date as determined by the Board of Examiners.
6. If enrolment is terminated during the course of the academic year, the student shall receive a notification through Studielink.
7. If UM has issued a BBC for the student in connection with simultaneous enrolment in one or more study programmes at another higher education institution in the Netherlands, UM shall inform the other institution(s) of the termination of the student's enrolment at UM.
8. If enrolment is terminated in the course of the academic year or re-enrolment is not completed on time for a student who requires a residence permit with study as the purpose of stay, UM shall, in accordance with Article 5.6 of the Code of Conduct for International Students, de-register the student with the IND and inform the student of such.

Article 34 Reimbursement of tuition fee or study fee following termination of enrolment during the course of the academic year

1. Once enrolment has been terminated, one twelfth of the applicable statutory or institutional tuition fee paid for the enrolment in question shall be refunded for every month of the academic year still remaining, providing that a request is made for a refund as described in Article 33 paragraph 4.
2. Contrary to the provisions of paragraph 1, if the enrolment is terminated as per 1 July or 1 August of the current academic year, no statutory or institutional tuition fee shall be refunded for the remaining months of the academic year.
3. Following termination of enrolment at the student's request in a pre-master's or professional master's programme, the study fee paid will be refunded in proportion to the duration of the programme remaining in relation to the number of ECTS credits to be obtained in the programme. If the enrolment in a pre-master's or professional master's programme is terminated as per 1 July or 1

August, no study fee shall be refunded for the remaining months of the academic year.

4. The tuition fee or study fee shall be refunded within three months after termination of enrolment and paid into the bank account from which UM received or debited the tuition fee or study fee. In the case of a tuition fee or study fee paid for an adult student by a third party, the refund shall be paid into the bank account that UM has on record for the relevant third party.
5. Before any tuition fee or study fee is refunded, any outstanding payments of any nature that the student owes to UM shall be deducted from the amount to be refunded, in accordance with the previous paragraphs.

Article 35 Termination of enrolment in the event of payment arrears

UM may terminate a student's enrolment if payment of the tuition fee arrears is not forthcoming within 14 days of the date on the (second) reminder as referred to in Article 32 paragraph 1b or paragraph 2 (reversal of direct debit of tuition fee instalment). In this case the enrolment may be terminated as of the second month following the month in which the warning notice was sent to the student. The student may only re-enrol as of the following academic year if he/she has paid any outstanding charges owed to UM before the start of that academic year.

Article 36 Termination of enrolment in the event of serious nuisance, serious fraud, conduct in relation to future professional practice, or negative Binding Study Advice

1. Pursuant to Article 7.57h WHW, the Executive Board can terminate the enrolment of a student or external student during the academic year on the basis of the UM House Rules and with due observance of the procedures described therein if the student or external student violates these rules and the measures established on the basis of these rules. The enrolment shall be terminated as of the first day of the month following the decision, or earlier if deemed necessary.
2. The Executive Board can also terminate a student's enrolment in the event of serious fraud as referred to in Article 7.12b paragraph 2 WHW or conduct in relation to future professional practice as referred to in Article 7.42a WHW. The enrolment shall be terminated as of the first day of the month following the decision. See also Article 3 paragraph 4.
3. The Executive Board shall terminate the enrolment of a student who has been found to have forged or falsified documents as referred to in Article 13. The Executive Board shall notify the student if the forgery/falsification is reported to the police.
4. The Executive Board shall at the end of the academic year terminate the enrolment of a student who has, pursuant to Article 7.8b WHW, been issued negative Binding Study Advice.

Article 37 Termination of enrolment as an external student

1. Enrolment as an external student shall end by law on 31 August of the academic year in which the student was enrolled.
2. Enrolment by an external student shall be terminated during the course of the academic year if the student submits to the SSC a request to this effect in the form of a dated and signed written statement.
3. When terminating enrolment as an external student during the course of the academic year, the external student shall not be entitled to a full or partial refund of the examination fees paid.

Article 38 Termination of enrolment in the case of death

1. In the case of the death of a student or external student, his/her enrolment shall be terminated as of the first day of the following month.
2. If the enrolment is terminated due to the death of the student, for every month following the end date as referred to in paragraph 1, one twelfth of the tuition fee paid shall, if desired, be refunded to the student's heirs for every month of the academic year still remaining. If the student paid a study fee for his/her study programme, the amount to be repaid will be determined with due observance of Article 34 paragraph 3.

Article 39 Cancellation of enrolment before the start of the programme

1. A student's enrolment can be cancelled at any time prior to the starting date of the programme on 1 September or 1 February. The student must submit the request for cancellation of enrolment via Studielink. An external student must submit the request in the form of a dated and signed written statement to the SSC.
2. When a student cancels his/her enrolment before the start of the programme as referred to in paragraph 1, at that student's request UM shall refund the full tuition fees, examination fees or study fee as referred to in Article 34 paragraph 4 that have already been paid and/or block the relevant (digital) authorisation for payment in instalments.

Chapter III Concluding provisions

Article 40 Damages

1. An individual who utilises education or examination facilities without having enrolled in a legally valid manner shall be required to pay damages to UM pursuant to Article 15.2 of the WHW.
2. The damages owing shall, in the case of participation in a full-time bachelor's or initial master's programme, amount to one twelfth of the institutional tuition fee determined by the Executive Board and applicable to the programme concerned as set out in Appendix I of these provisions for each month that the individual in question has unlawfully utilised education or examination facilities for a full-time bachelor's or initial master's programme at UM.
3. The damages owing shall, in the case of participation in a part-time bachelor's or initial master's programme, amount to one twelfth of the partial institutional tuition fee determined by the Executive Board and applicable to the programme concerned as set out in Appendix I for each month that the individual in question has unlawfully utilised education or examination facilities for a part-time bachelor's or initial master's programme at UM.
4. The damages owing shall, in the case of participation in a pre-master's or professional master's programme, amount to one twelfth of the study fee determined by the Faculty Board and indicated on the UM website for each month that the individual in question has unlawfully utilised education or examination facilities for a pre-master's or professional master's programme at UM.
5. At the request of the student, the enrolment shall come into effect as of the start of the month following the month in which the damages were paid, subject to the provisions of Article 4 paragraph 6. In this case, UM may declare that the procedural requirements for the issuing of a degree certificate/another type of certificate as referred to in Article 8 paragraph 3 have been met and the exam results obtained by the student concerned during the period in which he/she was not properly enrolled shall be considered valid.

Article 41 Unforeseen circumstances and applications of the Enrolment Provisions leading to inequitable consequences

Subject to the provisions of the WHW, which may not be deviated from, the SSC director shall take the final decision in cases not provided for by the Enrolment Provisions and in cases in which the application of the Enrolment Provisions would lead to seriously inequitable circumstances.

Article 42 Requests for decisions by the SSC director

A student who, via the CSP, requests from the SSC director an exemption from the rules laid down in these provisions on the grounds of harshness is obliged to ensure that the request submitted is complete and accompanied by the evidence required. The SSC director takes a decision within 8 weeks of receipt of the request by the CSP. This period begins the day after a complete request has been received. If the decision is delayed because the submitted request is incomplete, the student bears all ensuing legal consequences and risks.

Article 43 Legal recourse

Interested parties may lodge an objection against decisions based on these provisions within six weeks of receipt of the decision being announced by submitting an objection to the CSP for the attention of the Executive Board.

Article 44 Authorisation

The Executive Board has authorised the Director of the Student Services Centre to make decisions pursuant to these provisions, with the exception of the decisions taken on appeal that arise from decisions on the grounds of these provisions. Decisions on appeal are made by the Executive Board with the advice of the Dispute Advisory Committee for Student Affairs.

Article 45 Entry into force and official title

These provisions are valid for the academic year 2022/23 and shall enter into force on 1 September 2022. These provisions may be cited as 'UM Enrolment Provisions 2022/23'.

These Enrolment Provisions were adopted by the Executive Board on 8 March 2022 and submitted to the University Council.

Pursuant to this withdrawal agreement, students who are British nationals, who were already resident in the Netherlands before 31 December 2020 and who have been continuously registered in the BRP since then continue to be eligible for the statutory tuition fees, providing they also meet all other applicable requirements. Students from the UK who moved to the Netherlands after 31 December 2020 are classed as non-EU/EEA citizens. Subject to their specific residence permit, these students may be eligible for the statutory tuition fees, or are otherwise required to pay institutional tuition fees in accordance with these Enrolment Provisions. APPENDIX III

Third-country nationals with EU long-term resident status

(See Article 14 paragraph 5)

Students who are nationals of a non-EU country but who have acquired the status of long-term resident of an EU country other than the Netherlands may study at UM on the grounds of a residence permit with 'study' as the purpose of stay. UM must apply for this permit on their behalf and the student in question must fulfil the Dutch conditions pertaining to residence permits with study as the purpose of stay.

All Member States of the EU that have implemented Directive 2003/109/EC concerning the status of third-country nationals who are long-term residents issue to those they deem long-term residents a residence permit or residence sticker in the passport indicating the status 'EU long-term resident'. Only such a declaration of status on an EU residence permit or the residence sticker in the passport, including a passport photo, gives the individual in question the rights accorded to EU long-term residents. These rights include eligibility to pay the statutory tuition fee for an initial bachelor's or master's programme in the Netherlands, providing that the individual concerned has not already completed such a programme in the Netherlands (cf. Article 16 paragraph 1 in conjunction with Appendix II under i of these regulations).

Listed below are the official terms used in other EU Member States for third-country nationals who are long-term residents of the EU, as these are required to appear in a valid residence document issued by the relevant Member State or on a sticker in the student's own national passport in order to be potentially eligible for the statutory tuition fee:

Austria:

"Daueraufenthalt – EG",

Belgium:

"EG – langdurig ingezetene" / "Résident de longue durée – CE" / "Daueraufenthalt – EG",

Bulgaria:

"дългосрочно пребиваващо в ЕС" (Latin alphabet: "D-lgosrotsjno prebivavasjto v EC"); formerly "дългосрочно пребиваващо лице" (Latin: "D-lgosrotsjno prebivavasjto litse"),

Estonia:

"Pikaajaline elanik - EU"; formerly "EÜ- pikaajalise elaniku",

Portugal:

"Residente CE de longa duração",

Romania:

Slovakia:

"Osoba s dlhodobým pobytom – ES",

Slovenia:

"Rezident za daljši čas – ES",

Spain:

"Residente de larga duración – UE"; formerly "Residente de larga duración – CE")*,

Sweden:

"Varaktigt bosatt inom – EG".

Deviations from above abbreviations:

The final abbreviation in the terms listed above may vary, e.g. '- UE' may be used instead of '- CE' and vice versa.

* E.g. for Spain the correct designation prior to 2012 was "Residente de larga duración – CE", and from 2012 "Residente de larga duración – UE". Both terms may thus be used.

NB. Denmark and Ireland are not included in the list above as they have not implemented Directive 2003/109/EC.
