Foreword

The Maastricht Centre for European Law (MCEL) is committed to the study of European law from an interdisciplinary, transnational and multilingual perspective. It seeks to foster cooperation between scholars working in the field of European law who are based in Maastricht University and elsewhere.

We are delighted to present the MCEL Annual Report for 2014. This Annual Report highlights the main activities of the Centre that were undertaken in the year 2014. These include numerous research seminars, international conferences and workshops.

2014 was a good year, in which the Centre welcomed new scholars who made the membership of our Centre even more multinational and extended the scope of our scholarly expertise to new fields of EU law.

The reader will find in this report a reflection of the manifold activities that took place in the past year. We are particularly happy with the volume and quality of the publications, and with the fact that a team of students from Maastricht (coached by three members of our Centre) won, once again, the European Law Moot Court competition. We were proud to welcome Professor Paul Craig (Oxford University) as an associate member of our Centre upon the award of a honorary doctorate to him by Maastricht University.

We would like to wholeheartedly thank all MCEL scholars for their dedication and hard work, which is reflected in this Report.
