Ambassador **Valery**
@FasosValery
about her current courses

CORE ELECTIVE A: Transnational Migration

- Transnationalism: people can maintain connections across distant places; lives can take place across more than one nation
- Focus on families: communication, networks, life events & care

How do migrants maintain connections to their loved ones across borders?

CORE ELECTIVE B: Science & Technology Studies (STS) for Development

- Societies are shaped by science and technology; we live in “technological cultures”
- Technology can solve problems, but can also fail, or create new problems
- Crucial to development in Global North & South

How smoothly does technology ‘travel’ when it moves from place to place?
