We care about you!

Meet Greet Work

Online network event with more than 20 companies and organisations

www.maastrichtuniversity.nl/meetgreetwork

Welcome

Welcome to our network event 'Meet Greet Work'!

On June 16th, you will get the opportunity to connect with several organisations within a variety of sectors. In 45-minute sessions, they will introduce themselves to you by introductory sessions, company speed dates or in-depth workshops to get to know the organisation. Towards the end of the event there will be the opportunity to connect with them one-on-one.

If you have never had the opportunity or the time to connect and explore some companies and organisations who could very well be your future employer, then this is the moment!

We are looking forward to meeting you online and connect together.

Programme

The event will take place on Wednesday 16 June from 15:00h until 19:00h. The programme will be as follows:

- 15:15h - 15:30h **Log in for students - Welcome by UM Career Services**
- 15:30h - 16:15h **Session 1***
- 16:30h - 17:15h **Session 2***
- 17:30h - 18:15h **Session 3***
- 18:15h - 18:45h **Informal networking**
- 19:00h **Closing**

On the next page you will find an overview of the organisations, what topics they will cover in which sessions and which speakers will lead the session.

*Just like you, companies are looking for interesting contacts. Therefore, we have mentioned the type of students they are looking for in the text below. Please note that this does not mean that you could be excluded from any session. All sessions are open for all students.

Advipro

As an independent specialist, Advipro offers flexible, complete services in high-tech environments in the life sciences industry in Belgium and the Netherlands. A common thread running through their operations is safety. Advipro considers product and patient safety, as well as the safety and health of their people, their surroundings and the environment, highly important.

Advipro is constantly recruiting; they do not fill any vacancies. You have to fit into their team, not like a customer that they happen to be serving. They expect a broad interest and a lot of curiosity from you. They provide a solid foundation in pharma, invest in a professional framework and a great atmosphere so that you can grow further into, for example, Validation engineer, QA engineer, Project Engineer, Lab Qualification Engineer, etc.

Maybe a position as a Junior Project Engineer is something for you. During an intensive training program at The GxP Academy, you will learn everything about the do's and don'ts of the pharmaceutical industry.

During the event

Advipro will provide the following session(s):

- Een introductie in de farmaceutische industrie (Dutch) - Inge Neyens & Yves Van den Wyagaert

Interesse in een uitdaging binnen de farmaceutische industrie en wil je graag voorbereid aan je loopbaan starten? In deze sessie nemen je mee in onze uitdagende projecten die bijdragen tot de ontwikkeling, productie en verdeling van geneesmiddelen.

We lichten toe hoe je jouw carrière kan lanceren binnen life sciences en Advipro. We laten je kort kennismaken met het team binnen Advipro: The A-Team. Allemaal gemotiveerde professionals met een gedegen achtergrond in engineering en wetenschappen.

They are looking for Dutch-speaking students in the Faculty of Health, Medicine and Life Sciences and Faculty of Science and Engineering and in the master programmes Biomedical Sciences (+specialisations), Health Food Innovation Management, Biobased Materials etc.

More information

Visit their Facebook, LinkedIn, Instagram or website.

Avery Dennison

Avery Dennison (NYSE: AVY) is a global materials science company specializing in the design and manufacture of a wide variety of labeling and functional materials.

The company's products, which are used in nearly every major industry, include pressure-sensitive materials for labels and graphic applications; tapes and other bonding solutions for industrial, medical, and retail applications; tags, labels and embellishments for apparel; and radio frequency identification (RFID) solutions serving retail apparel and other markets.

Headquartered in Glendale, California, the company employs more than 30,000 employees in more than 50 countries. Reported sales in 2020 were \$7.0 billion.

During the event

Avery Dennison will provide the following session(s):

- How well do you know Avery Dennison? - Zuzanna Kokot
- How well do you know Avery Dennison? - Ioanna Ioakeimidou

In this session, you will have the opportunity to learn more about the company and the internship opportunities that they offer in various department. However, Avery Dennison is its people! For this reason after their company presentation they would be delighted to schedule a quick a speed dating with you, to have an opportunity to further discuss your questions at your own pace. They are looking forward to meeting you all!

They are looking for students from relevant studies, such as Economics and Business, International Business, Business Analytics, Econometrics and Operations research, Business Intelligence and smart services, Digital Business and Economics, Econometrics and Operations research, Economic and Financial research, Economics, Economics and strategy in emerging markets, Fiscal economics, Global Supply chain management and change.

Cleary Gottlieb Steen & Hamilton

Cleary Gottlieb is a pioneer in globalizing the legal profession.

Since 1946 their lawyers and staff have worked across practices, industries, jurisdictions, and continents to provide clients with simple, actionable approaches to their most complex legal and business challenges, whether domestic or international. They support every client relationship with intellectual agility, commercial acumen, and a human touch.

Their Brussels office has an internationally acclaimed antitrust law practice, treating issues such as merger control, cartel investigations, abuse of dominant market positions, and state aid. They regularly represent clients in proceedings before the European Commission and national antitrust authorities. The corporate practice spans all areas of national and international corporate law, including mergers and acquisitions, capital markets, private equity, banking and finance, financial regulatory, and corporate governance.

Whether you join them as a summer associate, stagiaire, or associate, you are sure to enjoy the vibrant atmosphere and international scene at the heart of Europe.

During the event

Cleary Gottlieb Steen & Hamilton will provide the following session(s):

- Working at the heart of Europe – Julie Favril

CGS&H's Brussels office will be hosting a presentation for law students in their final Bachelor year or first or second Master. The event will cover various topics about life at CGS&H, including a presentation about the firm, a Q&A session and information about how to apply for a position with us.

Envida

Together with about 4,000 colleagues and almost 1,000 committed volunteers, Envida is one of the larger healthcare organisations in the south of Limburg.

Envida offers services in the field of housing, welfare and care to the elderly and chronically ill in Maastricht and Heuvelland (in the south of Limburg). They enable their clients to live a pleasant life that meets their wishes. Preferably at home and if that is not possible in one of our care centers in Maastricht and Heuvelland.

They work with small-scale teams and find it important that everyone can enjoy their work. After all, satisfied employees ensure satisfied clients. They strive to provide our clients with having a pleasant day, every day.

During the event

Envida will provide the following session(s):

- Maak kennis met Envida (Dutch) – Noud Kusters

Envida will give a presentation about our organisation and how/where we work. We will also discuss which healthcare we provide and which clients we provide this care to. Furthermore, we will show you which jobs are available at Envida.

Envida looking for Dutch speaking students. Although they offer jobs for health care students, they also welcome other students in any other student programme.

The global EY organization is a leader in assurance, tax, strategy and transaction and consulting services. They leverage their experience, knowledge and services to help build trust and confidence in the capital markets and in economies all over the world. Their global purpose is to drive progress and make a difference by building a better working world – for their people, for their clients and for their communities.

During the event

EY will provide the following session(s):

- Taks Services of EY

Together we will have a look at some 'better questions' and find the right answer. As one of the world's most important tax consultancies, we assist renowned international clients in all tax-related matters. The qualifications for joining us include a degree in economics, law, finance or business informatics, ideally with a focus on taxation or business analytics.

- Strategy and Transactions at EY

We support companies in transformations, restructuring and investment decisions in order to optimally prepare them for the future. In this session we will have a look at some 'better questions' we deal with at EY and find the right answers. Feel free to bring your own better questions and discuss them with the group and one of our SaT Consultants.

- Sustainability at EY

EY helps customers to weigh the opportunities and risks of social, ethical and environmental factors that could impact business development.

Sustainability plays a major role for EY as a company and we are also constantly working on ourselves in this regard. Together we will have a look at some of your questions and will find the right answer to gain insights into the daily business of one of our consultants from CCaSS.

EY is looking for motivated individuals with the potential to develop into our future partners. They are interested in academic background such as (economics, finance, banking, controlling and law) as well as in your positions of responsibility and work experience. Good English and IT skills are as important as strong analytical and conceptual skills, a professional attitude and the ability to work in a team.

Koraal

Whoever you are and whatever you can do, Koraal believes that everyone should be able to direct their own life and participate actively in society where possible. Because they work in each of the areas of life (care, education and work), they help our clients and students to get the best out of themselves.

At Koraal they work for people of all ages with severe (mental) disabilities and complex behavioral and / or psychiatric problems. They provide care as well as education and employment. This integrated offer is unique. It enables them to always provide clients and students with the support they need at any point in their life. We do this partly from their own schools and institutions and partly supplemented by working with our chain partners.

During the event

Koraal will provide the following session(s):

- Speed dating (Fleur Devue)

Koraal is looking for Dutch speaking students.

Medtronic

Medtronic believes in the power of medical technology to improve lives. Seven decades ago, their co-founder invented the battery-powered pacemaker. Today, they are among the largest medical device companies in the world. With operations in 150 countries, their products treat 70 health conditions and include cardiac devices, cranial and spine robotics, insulin pumps, surgical tools, patient monitoring systems, and more. Their therapies help 72 million people a year and support our Mission to alleviate pain, restore health, and extend life.

Medtronic stated that their people make it possible. They value diverse perspectives and encourage our 90,000+ employees to be themselves. They hold each other accountable, act with integrity, and make quality our highest priority.

They consider themselves privileged to be part of the communities where they live and work. They are committed to giving back and reducing our impact on the environment.

During the event

Medtronic will provide the following session(s):

- Introduction to the Medtronic IT department – Stefan Maesen

During the session, Medtronic will give a presentation about the Medtronic IT department in Europe. We will elaborate on possible internship assignments within the ITMO department which is providing support to the IT department in Europe.

For one specific internship, Medtronic is looking for a multimedia design and communication intern. The other internships will have a broad perspective and might concern for example (process) improvements, innovation and lead times.

Nationaal Energietraineeship

The Nationaal Energietraineeship provides high-quality educated and trained professionals who will realise energy transition. The traineeship prepares them to become integral thinkers who work together and form one large, close-knit network. This leads to synergy throughout the chain, within and between branches, regional players and organisations.

During the event

Nationaal Energietraineeship will provide the following session(s):

- Nationaal Energietraineeship: iets voor jou? (Dutch) – Pieter Minnee, Jacob Froling

The Nationaal Energietraineeship is looking for Dutch speaking students who have a degree in relevant studies such as electrical engineering, energy science, sustainable energy technology, future planet studies, business administration, engineering, process engineering, public administration or behavioural sciences.

More information

www.nationaalenergietraineeship.nl

The OECD Network of Foundations Working for Development (netFWD) convenes philanthropists, policy makers and OECD experts to share evidence and strategic insights, explore promising novel approaches, and engage in genuine partnerships to address pressing development challenges. Their working groups on education, health and gender equality are a safe space for foundation leaders to share ideas, learn from one another and forge new partnerships. They provide foundations with the most up-to-date OECD policy research and data, and connect them with some of the world's leading experts on issues like strengthening health systems, teacher training and gender equality. Hosted at the OECD Development Centre, netFWD is a unique venue for foundations to meet policymakers from all the world's regions, as well as partners in multilateral organisations.

The OECD Centre on Philanthropy contributes to the global demand for more and better data and analysis on global philanthropy for development. It brings together relevant efforts from existing research centres and projects, expands the OECD database, and provides research and analysis on global trends and impact of philanthropy for development in the context of the 2030 Agenda.

During the event

The OECD will provide the following session(s):

-Meet and greet with OECD – Laura Abadia, Nelson Amaya

This session will start with a short presentation that will allow you to learn more about why and how the OECD engages with private foundations, through its Centre on Philanthropy and Network of Foundations Working for Development. After the presentation, you will have an opportunity to ask questions about this specific stream of work, but also about professional career at the OECD.

They are looking for students in study programmes related to Economics, International Development and Data Science.

More information

www.oecd.org

Openbaar Ministerie

The Openbaar Ministerie (Public Prosecution Service) is responsible for investigating and prosecuting criminal offences on behalf of society at large. Its work aims at ensuring that those who commit crimes are punished appropriately, that victims and next of kin feel that someone is on their side, and that the Dutch public are confident that the law of the Netherlands are applied fairly and correctly.

These are the main tasks of the OM:

- Preside over the police to detect criminal offences
- Prosecute criminal offences and bringing suspects to justice
- Prosecute criminal offences without intervention by the court

The OM is a national organization divided over ten districts. These are equal to the ten regional police units.

During the event

The Openbaar Ministerie will provide the following session(s):

- Veel voorkomende criminaliteit: Een dag bij ZSM (workshop) (Dutch) - Amaury Arits

Common crimes such as (petty) theft, vandalism, violence around bars or embezzlement cause a lot of trouble and requires decisive and balanced action. The OM looks after the investigation and prosecution of these criminal offences by collaborating the police and other investigative agencies at the so-called ZSM-locations (ZSM stands for 'Zorgvuldig, Snel en op Maat'; diligent, quick and tailor-made). At these ZMS-locations, the district attorney can decide quickly over the case. The district attorney takes into account the advice of the organisation within the ZSM-network, the interests of the victims, the offenders and the society. In this workshop, we will discuss a number of cases that are treated by the ZSM.

The Openbaar Ministerie is looking for Dutch speaking students in the Faculty of Law.

Information about their contribution to the event and the students they are looking for will follow soon.

Palo Alto Networks

At Palo Alto Networks everything starts and ends with their mission: protecting their way of life in the digital age by preventing successful cyberattacks. It is not a small goal. It isn't simple either, but they aren't in this for the easy answer.

Heir mission doesn't happen by treading softly – no, it happens by defining an industry. It means building products that haven't been thought of. It means selling products with a solutions mindset. It means supporting the infrastructure of a company that moves at an incredible speed – intentionally – to stay ahead of the world's next cyberthreat.

During the event

Palo Alto Networks will provide the following session(s):

- Round 1: Secure Your Future at Palo Alto Networks - Katherina Darellas

Join this informative session with our Early Talent Recruiter Katherina Darellas and learn how you can Secure Your Future at Palo Alto Networks! Expand your knowledge on the cybersecurity industry, application and interview processes and get all your questions answered.

- Round 2: Speed dates - Dominic Botez

You're about to graduate—congratulations! But now you face a new challenge: building a career. In school your curriculum helped guide you, but your professional life is an open world of possibilities. It can be both exciting and intimidating and we are here to help you find your own path to success. Join this Speed Dates Session and have a chat with our Senior Early Talent Recruiter Dominic Botez. Learn more about Palo Alto Networks opportunities, recruiting processes and ask your questions!

Palo Alto Networks is looking for students in study programmes related to Financial Economics, Economics, Work Healthand Career, Business Research, Advanced Master in Privacy, Cybersecurity, Data Management and Leadership, Business Intelligence and Smart Services, Business Engineering/ Analytics and International Business.

Solid Professionals

Solid Professionals is an ambitious company that has grown exponentially in recent years with the primary focus on the Finance, Data and Risk sector within some of the largest banks and insurance companies in the Netherlands. Their goal is to be a top employer for our employees and a sustainable partner for our well-respected customers.

Solid Professionals wishes to bring more confidence to the financial sector by helping people - customers and professionals - take a step forward in a sincere manner. They do this with the unique combination of committed and specialist advice, interim services, and their young professional program.

During the event

Solid Professionals will provide the following session(s):

- Introduction to the professional program traineeship - Sophie Voest/Jasper Hekking

For our clients we are always searching for (soon to be) graduated, driven, and ambitious young professionals who want to get the most out of themselves and excel their career. As a trainee you start directly with one of our clients. Meanwhile, at Solid Professionals you follow a training program focused on personal leadership, networking, and vitality. You do this together with a motivated group of other trainees from different disciplines within the banking and insurance industry. In addition, you will receive a personal training budget that can be used to further develop and enhance your hard skills. During the traineeship you will be coached and guided by your personal talent manager which we will provide for you. The aim of the traineeship is to enhance your skills and get you employed and ready to grow within the company of the client after 12 or 24 months.

Solid Professionals is looking for ambitious master students who want to pursue a traineeship in the field of Finance, Risk or Data sector.

The Student Promise

It can be quite an adventure to find out what makes you tick and what your ambitions are. For you a job is much more than a job. The Student Promise helps you prepare for the next step in your life, the first step in your career. They are not a jobsite and they are not a recruitment agency. They are an online platform that puts you back in control to maximize your potential.

They will take you on a journey to help you find out what works for you. The Student Promise enables the globalization of jobs and help you by giving tailor-made career guidance and learnings based on data-driven insights. They want to make sure you are in control of your own ambitions. They help you every step along the way, so you can get the most out of yourself and your job.

During the event

The Student Promise will provide the following session(s):

- What's your ambition as a game changer? - Arjan Wiegerinck

A job is much more than a job. It's a way to express yourself, your goals and your ambitions. This can raise many questions like: What am I good at? Which working culture suits me best? At which company do I really fit in? We provide answers to those questions.

The Student Promise is taking a radically new approach and is here to disrupt the market. We give students and young professionals total freedom and control over their goals and ambitions. We're the one and only enabler for the ambitions of the new generation: the game changers. We give them the tools and skills to get the most out of themselves.

So, what is your ambition? Find out in our workshop.
