CHAPTER 3 - ELECTIVES

Article 35: General provisions

1

If applicable, the student must, in compliance with annex 1A and annex 2, fill in the free elective space with:

. a compulsory course from another Master's programme of the Faculty of Law, except for the following exceptions:

- Students of the Master Fiscaal Recht, specialisation Directe Belastingen: may not take the courses Fundamentals of international Taxation, European Corporate Tax, Responsible international tax planning, Compliance and administration.
- Students of the Master International and European Tax Law, general programme: may not take the courses Ondernemingsrecht, Europese en Nederlandse vennootschapsbelasting en Verdieping formeel belastingrecht.
- The courses Verdieping BTW (Universiteit Leiden), Tax Assurance Indirecte Belastingen (Tilburg University), Indirecte Belastingen en Internationale Handel (Vrije Universiteit Amsterdam), Capita Selecta Omzetbelasting (Tilburg University), Tax and Technology I (Vrije Universiteit, Amsterdam), Tax and Technology II (Tilburg University)

. a course from the following list:

- Advocaat en ethos OR The good lawyer
- Global tax policy and sustainable governance
- Advanced property law
- Law and economics
- International dispute settlement
- European data protection and privacy law
- Law of the sea
- Law of the Economic and Monetary Union
- European Labour and Social Security Law, unless the course Europeanising Sociaal Recht is (mandatory) taken
- Courses mentioned in article 32 and article 33 as bounded elective

2

A maximum of 6 credits may be acquired by taking a course from another master's programme at this Faculty or a legal master's course at another faculty, possibly at a faculty in another country. The student must submit a proposal to that effect to the

Director of Studies for approval, via the Education Desk. The provisions of this paragraph may be departed from in the further provisions concerning study abroad.

3

A maximum of 6 credits may be acquired by completing an internship.

4

The Director of Studies may grant permission, under conditions set by him or her, for a student to compose their own elective of up to 6 credits under the supervision of a lecturer qualified to conduct exams. A proposal for this elective, along with a short description and the name of the requested supervisor, needs to be submitted beforehand to the Education Desk. The Director of Studies will make a decision regarding the proposal within four weeks. If needed, the Board of Examiners will then decide on the exam requirements within four weeks.

5

A student can follow electives abroad ('study abroad'). Credits gained by 'study abroad' before the start of the study cannot be recognised as electives in the study.

Article 36: Further provisions concerning the electives for the master's programme International Laws

1

Students have 42 credits of electives. In accordance with Article 26, at least 24 credits must be taken in the country of exchange at one of the partner university associated with this programme (exchange requirement). Proposals for the courses to be followed must be submitted to the Director of Studies for approval, in the form of a learning agreement (in accordance with the Internationalisation Office's procedure for stays abroad). If an exchange at a partner university is not possible, a proposal can be submitted to the Director of Studies for approval for an alternative completion of the compulsory 24 credits that have to be obtained abroad.

2

Only after the student has obtained 48 credits in year 1 of the master's programme International Laws the student is allowed to go on exchange.

3

Students can acquire a maximum of 6 credits by completing an internship within an international context. The internship activities must be of a legal nature and in keeping with the programme. Internship proposals must be submitted to the Director of Studies for approval, via the Internship Coordinator.

4

Students may acquire a maximum of 12 credits by taking non-legal courses (including language courses). Proposals must be submitted to the Director of Studies for approval, via the Education Desk. Approval will be granted only if the student, in addition to the language course, has completed a further 24 credits in non-language courses abroad.

Article 37: Further provisions concerning the internship

1

Students can acquire a maximum of 6 elective credits by means of an internship.

2

The Faculty may offer internship places. Alternatively, students may submit an internship proposal to the Director of Studies for approval, via the Internship Coordinator. The Director of Studies will make a decision regarding that proposal within a period of four weeks.

3

The Internship Office appoints a supervising lecturer for each internship. The internship qualifies as a component of the examination only if the lecturer has approved the internship report and formed a positive opinion concerning the information received by the Internship Office regarding the student's performance during the internship.

4

Per specialisation, students may undertake no more than one internship supervised by a staff member of the Faculty.

5

Further guidelines will be drawn up by mutual agreement between the Director of Studies and the Board of Examiners to ensure the effective organisation of internships. The internship guidelines can be found on the faculty website. Students must agree to comply with the internship guidelines by signing a student declaration prior to the internship.

Article 38: Further provisions concerning study abroad

1

Students can acquire a maximum of 6 elective credits by taking courses at a faculty abroad. If the study abroad comprises 12 credits and takes place in the semester in which three compulsory courses are scheduled, a maximum of one compulsory course scheduled for this period may be replaced by the courses taken abroad, provided the courses taken abroad are in line with the chosen specialisation. A core course cannot be replaced by study abroad. In derogation from these provisions, article 36(2) applies to the master's programme in International Laws.

2

Proposals for the courses to be followed must be submitted to the Director of Studies for approval, in the form of a learning agreement (in accordance with the Internationalisation Office's procedure for stays abroad).

CHAPTER 4 - WRITTEN PAPERS

Article 39: Further provisions concerning written papers

1

The content of the master's thesis is in line with the chosen programme and the associated specialisation, if any, and is a minimum of 8000 words in length. The lecturer's permission will be required if the number of words is to exceed 10,000.

2

a. The thesis for the Nederlands Recht, Fiscaal Recht, Recht en Arbeid and Forensica, Criminologie en Rechtspleging (Dutch-language track) programmes is written in Dutch. The lecturer (thesis supervisor) may give permission for the thesis to be written in English.

- b. The thesis for the International and European Tax Law, European Law School, Globalisation and Law, International Laws and Forensica, Criminologie en Rechtspleging (English-language track) programmes is written in English.
- c. In exceptional cases, the Board of Examiners may give permission for the thesis to be written in a different language.

3

Further guidelines are drawn up by mutual agreement between the Director of Studies and the Board of Examiners in respect of the master's thesis (Regulations on the Master's Thesis, available on the website). Those regulations contain further provisions concerning the procedure, deadlines and submission dates for the master's thesis.

4

In consultation with the examiner, students choose a topic for the master's thesis in accordance with the Regulations on the Master's Thesis. If applicable, when choosing a topic students must indicate as part of which specialisation or specialisations the thesis should be assessed.

5

A master's thesis must be written for each programme or specialisation.

6

If one or more papers must be written as part of the programme, those papers must be written individually, unless the staff member responsible for the course component determines otherwise.

7

If one or more papers must be written for a course or a practical, the examiner may invite the candidate to provide an oral explanation on the paper submitted.

8

By submitting a paper for the programme, the student is consenting, in the broadest sense of the word, to having his or her work checked for plagiarism through a plagiarism detection system. That consent also means that the student is agreeing to the inclusion of the paper in question in a plagiarism detection system database to enable other works to be checked for plagiarism in future.

CHAPTER 5 - HONOURS (RESEARCH TRACK) PROGRAMME

Article 40: The Honours (research track) programme

1

The Honours (research track) programme as listed on the faculty website is a supplementary programme for the most highly motivated master's students from the master's programmes named in these Regulations.

2

A limited number of students are admitted to the Honours (research track) programme each year. Selection takes place once a year. Selections are made on the basis of motivation and above-average study results. The procedure is specified on the faculty website.

3

Students who have been admitted to the Honours (research track) programme attend the courses offered by the Maastricht Graduate School of Law, as listed on the faculty website.

4

Students participating in the Master's Honours Research Track need to submit their thesis by 31 August in the academic year they are doing their master's programme (this is the following year for students doing the ILs programme). Students who do not meet this deadline will not receive the Honours certificate.

CHAPTER 6 - ADMISSION TO EDUCATION AND EXAMINATION COMPONENTS

Article 41: Admission to education

1

Students are entitled to participate in educational activities in accordance with the annual schedule with a regular study load for the period concerned, as mentioned in articles 7 up to and including article 33, provided the further paragraphs of this article. If desired, the student can take more than the regular study load per period.

2

Only with the permission of the Director of Studies may the student be admitted to education in deviation from the provisions of the previous paragraph and/or extracurricular education.

3

Students are not entitled to participate in the course activities or exams of courses mentioned in annex 2 until they have passed the listed courses.

Article 42: Periods and frequency

1

Students are given the opportunity to sit course exams twice a year at times to be determined by the Board of Examiners: once immediately after the course has been completed and once in the course of the academic year, where possible after the end of the subsequent course period.

2

If the examiner so requires, oral and/or written assignments performed during the course of study may form part of the course exam.

3

In exceptional cases, the Board of Examiners may decide to hold a course exam at a time other than the times stipulated pursuant to the first paragraph, or to grant an additional resit.

Article 43: Examination methods

1

In principle, with due observance of article 34, course exams are written examinations. Written examinations are in any case understood to mean:

- . a test with open questions
- . a test with open questions and one (or more) written assignments or papers

. a test with one (or more) written assignments or papers
A written test may consist of a computer-based exam. Where papers and/or assignments form part of the test, they must be submitted by the deadlines specified in the course book. The course book must specify how the final course grades are determined.

2

Changes to an existing test method must be submitted to the Board of Examiners for approval no later than eight working weeks before the start of the course or practical concerned. The same procedure applies to the approval of the test method for a new examination component.

3

The Board of Examiners may withdraw the approval.

4

The examiner may decide that a course exam will be taken orally or will consist (in part) of one or more written papers with oral explanations if candidate numbers are low or in view of the nature or content of the course concerned.

5

The test method chosen will be specified in the course book. The method chosen may only be departed from with the permission of Board of Examiners and only if this benefits the students.

6

Students with a chronic disability or chronic illness will be given the opportunity, upon request, to take course exams in a manner which best accommodates their individual disability or illness. If necessary, the Board of Examiners will seek expert advice before making a decision. The provision of the first paragraph which stipulates that, in principle, tests will take the form of a written exam will not be departed from substantially.

Article 44: Oral course exams

1

Oral course exams are taken individually unless the Board of Examiners has determined otherwise.

2

An oral course exam is conducted by two examiners unless the Board of Examiners has determined otherwise.

3

Oral course exams are held in public unless the Board of Examiners or the examiner concerned has determined otherwise in an exceptional case, or the student has objected to this.

Article 45: Instructions and Guidelines

The Board of Examiners may set instructions and guidelines concerning the assessment of course exams and concerning determination of the results.

CHAPTER 7 - COURSE EXAM RESULTS

Article 46: Determination and notification

1
The examiner determines the result of a written course exam or essay within four weeks of the date upon which it was taken and provides the Education Office with the information it needs to notify the student of the result. In exceptional cases, the Board of Examiners may decide to change the length of that period.

2
The examiners determine the result of an oral course exam immediately after it has taken place and issue the student with a written statement of the result. If several students take the same course exam consecutively, announcement of the result may be postponed by no more than one week.

3
With regard to tests which are taken in a manner other than orally or in writing, the Board of Examiners will determine in advance how and the term within which the student will receive a written statement concerning the result.

Article 47: Period of validity

1
In principle, the period of validity of course exams which have been passed is unlimited.

2
With regard to a component for which the course exam was taken more than six years previously, the Board of Examiners may require an additional or replacement exam to be taken if the knowledge or understanding forming the subject of the exam is demonstrably outdated or if the skills forming the subject of the exam are demonstrably outdated. If the special circumstances as referred to in Section 7.51(2) of the WHW occur, the period of six years will be extended by the period during which the student receives financial support from the Financial Support Fund.

3
Course exam components relating to a course or to a practical, such as assignments and presentations, will remain valid during the relevant academic year; they will cease to be valid as from 1 September of the following academic year. Article 42(2) applies accordingly.

Article 48: Right of inspection

1
Students who have taken a written course exam may inspect their assessed work within a period of three weeks starting on the date upon which the result was published. The inspection must take place at one or more of the times and places determined for this purpose by the Board of Examiners. The procedure applicable to those inspections and the deadline for submitting a request for an inspection are published on the faculty website. During the same period, other interested parties may, if they so request, be permitted by the Board of Examiners to inspect the test questions and the assessment criteria.

2

If a test is taken using a computer, permission to inspect the way in which the work was assessed will be granted on an individual basis upon written request.

3

Written work may be inspected in consultation with the lecturer concerned within a period of three weeks of the notification of the assessment.

Article 49: Fraud

1

Fraud, including plagiarism, means actions or omissions by a student which make it impossible in whole or in part to evaluate his or her knowledge, understanding and skills properly.

2

Plagiarism means the presentation of ideas or words from someone else's texts without proper acknowledgement of the source.

3

If the Board of Examiners determines that a student has committed fraud in respect of a course exam or course exam component, it can take appropriate measures.

4

The Board of Examiners may, in serious cases of fraud, propose to Maastricht University's Executive Board that the student concerned be de-registered permanently from the programme.

5

Without prejudice to the powers of the Board of Examiners, the Dean has the authority to report a student for forgery.

6

The Instructions and Guidelines include further provisions about what constitutes fraud and which measures the Board of Examiners may impose.

Article 50: Unsuitability (Iudicium Abeundi)

1

In exceptional cases and after a careful weighing of the interests involved, the Dean may ask the Executive Board to terminate or deny a student's registration for the programme if the student's conduct or statements proves them to be unsuitable to practise one or more professions for which the programme concerned is training them, or unsuitable for the practical preparation for the profession. The Board of Examiners may submit a recommendation to that effect to the Dean.

2

If the Dean of the Faculty is asked by the Executive Board for a recommendation concerning a proposed termination or denial of registration based on the reasons stated in the first paragraph, the Dean will in turn ask the Board of Examiners for a recommendation. The recommendation to the Dean will be substantiated.

Article 51: Right of appeal

On all decisions of the Board of Examiners communicated to the student to which an appeal is possible, the student is informed of the possibility of appeal to the Examination Appeals Board ex article 7.61 WHW (which provision is included in these regulations) and the time limit within which this appeal must be lodged.

CHAPTER 8 - EXEMPTION AND INCLUSION OF COURSES

Article 52: Exemption from course exams and inclusion of courses

1

The Board of Examiners is authorised to exempt a student from specific examination components if that student has successfully completed examination components which are equivalent in terms of content, scope and level at an institution of higher education.

No exemption can be granted for:

- . an examination component based on one or more examination components obtained on a higher professional education programme;
- . a component of a master's examination component based on a component of a bachelor's examination component.
- . a component whose examination was passed more than six years ago (see also article 47).

2

The authority referred to in the first paragraph will not be used in any circumstances in so far as, owing to exemption having been granted, the student requires fewer than 24 credits from faculty courses in order to complete the programme.

3

No exemption will be granted for the master's thesis.

4

Examination components may be incorporated into one course or specialisation only.

5

Contrary to the provisions of paragraph 4, the Board of Examiners may grant approval to include examination components, except for internships, worth a maximum of 12 credits in a programme or specialisation which also form part of a different master's programme or specialisation which is being taken or has been taken by the student.

The provisions of this paragraph also apply to students from a different university who are admitted to a master's programme and have earned credits here as part of an exchange programme. For a programme which, owing to collaboration with one or more universities, results in students gaining multiple degrees (double degree programme) more than 12 credits may form part of each of the two faculty programmes. The Faculty Board adopts additional regulations for such double degree programmes.

6

The combination of exemptions and included examination components may not result in more than 24 credits.

The Faculty Board may adopt alternative regulations for a programme which, owing to collaboration with one or more universities, results in students gaining multiple degrees (double degree programme).

7

The Board of Examiners will not grant an exemption based on examinations passed by a student outside the programme during the period in which the student was excluded by the Board of Examiners from participation in course exams for the programme because of fraud.

8
Paragraphs 2, 3 and 6 are not applicable to exemptions granted for courses passed as part of the contract education offered by the Faculty.

CHAPTER 9 - MONITORING STUDY PROGRESS

Article 53: Study progress standard

1
In accordance with the Modern Migration Policy Act (*Wet modern migratiebeleid*), students with a student residence permit must earn at least 50% of the credits allotted to an academic year to retain their permit. This requirement does not apply to exchange students and pre-master's students.

2
The study progress standard is 30 credits for each academic year. In principle, all the credits earned by a student in a year (including exemptions) are taken into account in the determination of the total number of credits.

3
UM is obliged to report to the IND each year if there are students who have not met the study progress standard. The report on the students' progress made over the past academic year is issued in November of each year.

4
If students do not meet the 50% standard, they may be eligible to be excused.

Article 54: Reasons for excusability

1
If the Faculty Board intends to issue a negative decision about whether a student meets the study progress standard, that student will be given the opportunity to adduce circumstances which led to him or her having failed to meet the standard.

2
The following circumstances are taken into account:

- a. Illness of the person concerned;
- b. Physical, sensory or other functional disabilities of the person concerned;
- c. Pregnancy and/or childbirth of the person concerned;
- d. Exceptional family circumstances;
- e. Board activities as referred to in article 2.1 (1) of the Implementing Decree of the Higher Education and Research Act;
- f. An insufficiently feasible degree programme;
- g. Having a top-level sports status recognized at UM;
- h. Other causes which result in considerable unfairness (hardship clause).

3

Students who can reasonably suspect to incur a study delay due to personal circumstances should report this to the study adviser. This way they can reduce any study delay related to the circumstances and, if the study adviser deems it necessary, draw up an individual study plan. The student should report this within 14 days of when the circumstances occur.

CHAPTER 10 - EXAMINATIONS

Article 55: Degree; certificate

1

The Board of Examiners decides once a month on the awarding of the master's certificate and the degree granted.

2

The Board of Examiners issues a certificate as proof that the master's examination has been completed successfully. The certificate is signed by the Chairperson of the Board of Examiners and the Dean. The certificate is awarded in public unless the Board of Examiners decides otherwise in exceptional cases.

3

Those students who have successfully completed the master's examination are awarded the Master of Laws (LLM) degree with the name of the master's programme added to it.

4

The examinee is also presented with a separate list of grades, as well as a diploma supplement when the certificate is awarded.

5

A student who is entitled to a certificate may request, stating grounds, that the Board of Examiners refrain from awarding it for the time being. Any such request must be submitted at least one month before the final examination component has been taken. The Board of Examiners will always grant the request - for a period to be determined - if the student:

- has been selected by the faculty for an extracurricular internship or an extracurricular exchange, or
- holds or will hold a board position for which he or she will be awarded financial support from the Financial Support Fund for at least nine months, or
- holds or will hold an INKOM board position.

The Board of Examiners may also grant the request if not doing so would result in considerable unfairness.

6

The Board of Examiners may award the Cum Laude or Summa Cum Laude title in accordance with the relevant provisions of the Regulations and Guidelines.

7

Students who have successfully completed the Honours programme are awarded an Honours certificate.

8

Annex 4 lists the cases in which students are eligible for a statement of civil effect.

Article 56: Grade Point Average

The Board of Examiners may provide students with a certificate confirming their Grade Point Average if they submit a reasoned request to that effect (for example, for a master's programme registration). The Grade Point Average is indicated only on the transcript, not on the official grade list.

CHAPTER 11 - ADMISSION

This chapter relates to admission as at September 2023.

Article 57: Admission to the master's programmes in Nederlands recht, Recht en Arbeid, and Forensica, Criminologie en Rechtspleging

1

The following individuals may be admitted to the master's programmes in Nederlands recht, Recht en Arbeid, and Forensica, Criminologie en Rechtspleging (Dutch-language track):

Article 59: Admission to the master's programme International and European Tax Law

1

The following individuals may be admitted to the master's programme in International and European Tax Law:

- a) those who have been awarded a Bachelor of Laws degree in Fiscaal recht in accordance with the Education and Examination Regulations for the bachelor's programme Fiscaal Recht of Maastricht University's Faculty of Law, provided the candidate has a sufficient command of the English language in accordance with the requirements of article 70; and whom have been awarded a Certificate of Admission in accordance with article 64.
- b) those who have been awarded a Bachelor of Laws degree in European Law School in accordance with the Education and Examination Regulations for the bachelor's programma European Law School of the Faculty of Law of Maastricht University, provided the candidate has successfully completed the tax law courses "Concepts of Income and Business Taxation" and " International and European Tax and Customs Law", and whom have been awarded a Certificate of Admission in accordance with article 64.
- c) those who have successfully completed the pre-master's programme in Law, provided that the additional substantive requirements for admission to the relevant master's programme have been met, and whom have been awarded a Certificate of Admission in accordance with article 64.

2

To be admissible to one of the master's programmes mentioned in paragraph 1(a), the student must:

- . have submitted the bachelor's essay by 15 July, and
- . have completed all other examination components of the bachelor's programme before 1 August.

Article 60: Admission to the master's programmes in European Law School, Globalisation and Law, and Forensica, Criminologie en Rechtspleging (Track Forensics, Criminology and Law)

1

The following individuals may be admitted to the master's programmes in European Law School, Globalisation and Law, and Forensica, Criminologie en Rechtspleging (Track Forensics, Criminology and Law):

- a) those who have been awarded a Bachelor of Laws degree in European Law School in accordance with the Education and Examination Regulations of the bachelor's programme European Law School of Maastricht University's Faculty of Law;
- b) those who have been awarded a Bachelor of Laws degree in Rechtsgeleerdheid or Fiscaal recht in accordance with the Education and Examination Regulations for the bachelor's programmes Rechtsgeleerdheid and Fiscaal Recht of Maastricht University's Faculty of Law, provided the candidate has sufficient command of the English language in accordance with the requirements of article 70; and those who have been awarded a Certificate of Admission in accordance with article 65.
- c) those who have successfully completed the pre-master's programme in Law, provided that the additional substantive requirements for admission to the relevant master's programme have been met, and whom have been awarded a Certificate of Admission in accordance with article 65.

2

To be admissible as at September to one of the master's programmes mentioned in paragraph 1(a), a student must:

- . have submitted the bachelor's essay by 15 July, and

- b) who have been awarded a Bachelor of Laws degree by a Dutch university or those who have been awarded a university Bachelor of Laws degree which is comparable in terms of level with the Dutch degree, provided that this degree was awarded for a programme involving at least 24 credits for courses relating to tax law (including wage and income tax, corporation tax and international tax law), 9 credits for business economics courses (including the interpretation of financial statements and business records) and 9 credits for private law courses (including property law, the law of obligations and business law);
- c) who have been awarded the diploma of the six-year programme of the Federatie Belasting Academie, or of the programme RB Academy or the master's programme of the Federatie Belasting Academie, provided that the latter programme was preceded by a bachelor's of the Federatie Belasting Academie or an HBO (Higher Professional Education) Bachelor's in Fiscaal recht or Fiscale Economie;
- d) who have been awarded a different bachelor's degree which is comparable in terms of level with a Dutch bachelor's degree, have successfully passed the entrance examination for the master's in Fiscaal recht, as referred to in article 68, and who have a sufficient command of the Dutch language in accordance with the requirements of article 71;
- e) those who are attending a university programme which does not yet comply with the bachelor's/master's structure envisaged in the Bologna model and who have completed a comprehensive part of the programme which is comparable in terms of study load and level with a Dutch bachelor's degree, have successfully passed the entrance examination for the master's programme as referred to in article 68, and have a sufficient command of the Dutch language in accordance with the requirements of article 71.

2

In the absence of the prior knowledge specific to a master's programme, students will be required to sit an entrance examination as referred to in article 68.

Article 64: Certificate of Admission to the master's programme in International and European Tax Law

1

On request, the Certificate of Admission to the master's programme in International and European Tax Law as referred to in article 59(1)(b) is issued to those

- a) who have been awarded a Bachelor of Laws degree in Fiscaal recht or a Bachelor of Science degree in Fiscale Economie by a Dutch university, provided that that degree was awarded for a programme involving at least 24 credits for courses relating to tax law (including wage and income tax, corporation tax and international tax law), 9 credits for business economics courses (including the interpretation of financial statements and business records) and 9 credits for private law courses (including property law, the law of obligations and business law);
- b) who have been awarded a Bachelor of Laws degree by a Dutch university or those who have been awarded a university Bachelor of Laws degree which is comparable in terms of level with the Dutch degree, provided that this degree was awarded for a programme involving at least 24 credits for courses relating to tax law (including wage and income tax, corporation tax and international tax law), 9 credits for business economics courses (including the interpretation of financial statements and business records) and 9 credits for private law courses (including property law, the law of obligations and business law);
- c) who have been awarded the diploma Bachelor of Laws in European Law School in accordance with the Education and Examination Regulations of the bachelor's programme European Law School of Maastricht University's Faculty of Law, provided the candidate has successfully completed the tax law courses "Concepts of Income and Business Taxation" and "International and European Tax and Customs Law";

- have a sufficient command of the English language in accordance with the requirements of article 70, and
- have submitted a letter in English stating their reasons, which the Board of Admissions has found convincing,

b) those who

- have been awarded a different bachelor's degree which is of a level comparable with a Dutch bachelor's degree, and who have successfully completed the pre-master's programme Law as referred to in article 69, and
- have a sufficient command of the English language in accordance with the requirements of article 70, and
- have submitted a letter in English stating their reasons, which the Board of Admissions has found convincing, and

c) those who

- are attending a university programme which does not yet comply with the bachelor's/master's structure envisaged in the Bologna model and who have completed a comprehensive part of the programme which is comparable in terms of study load and level with a Dutch bachelor's degree in Law, on which the Board of Admissions has given a positive assessment, and
- have a sufficient command of the English language in accordance with the requirements of article 70, and
- have submitted a letter in English stating their reasons, which the Board of Admissions has found convincing, and

Article 78: Unforeseen cases

The Faculty Board will make a decision in cases not provided for by these Regulations.

Article 79: Entry into effect

These Regulations will enter into effect on 1 September 2023 and expire on 1 September 2024.

Adopted by the Faculty Board on 19 april 2023.

**ANNEX 2 – SEQUENTIAL BLOCKS
(Explanation to article 41)**

The course in column 2 cannot be taken until the student has successfully taken and completed the course in column 1.

International trade	Advanced international trade
Gezondheidsrecht I	Gezondheidsrecht II
Arbeidsrecht I	Arbeidsrecht II
Sociale Zekerheid I	Sociale Zekerheid II

- The labour market demand is internationally oriented (e.g. international organisations; NGOs engaged in transnational action; international law-firms)
- The student intake and current population is internationally diverse and English is the common language. (85% of the students are foreigners)

Master International Laws:

The choice for the language of instruction of the programme is in line with the UM Code of Conduct on language in accordance with the Dutch Higher Education and Research Act (WHW) art. 7.2.

Because of the specific educational nature and profile of the International Laws Master's Programme, teaching and examinations are conducted in English. This guarantees the quality of education, because:

- The content of the programme has an international orientation and focuses on international law, EU law and the interaction between international cq. European law and national law.
- The academic community is internationally oriented and the staff is international (given the overall topic of the programme (international and European law) many, if not the majority of the faculty involved in the courses are foreigners).
- The labour market demand is internationally oriented (e.g. European Institutions, international organisations; NGOs engaged in transnational action; international law-firms).
- The student intake and current population is internationally diverse and English is the common language.
- Most materials are available in English and English is the common language used.

Master International and European Tax Law:

The choice for the language of instruction of the programme is in line with the UM Code of Conduct on language in accordance with the Dutch Higher Education and Research Act (WHW) art. 7.2.

Because of the specific educational nature and profile of the International and European Tax Law Master's programme and its specialisations Tax and Technology, and Customs and International Supply Chain Taxation, teaching and examinations are conducted in English. This guarantees the quality of education, because:

- The content of the programme has an international and European orientation and focus. For example: internationally operating companies and cross border workers.
- The academic community is internationally oriented and the staff is partly international.
- The labour market demand is internationally oriented (English speaking) alumni. Many of the students find a job abroad at international tax law firms.
- The student intake and current population is internationally diverse and English is the common language. 10% Dutch, 90% non-Dutch.

The following applies for students with other previous education:

- a) Students who have completed an accredited **hbo-Rechten** bachelor's degree (Nederlands Recht variant) plus the **UM pre-master's programme Rechten** for the master's programmes in 'Nederlands Recht', 'Recht en Arbeid' and 'Forensica, Criminologie en Rechtspleging (Dutch-language track)' are eligible for a civil effect statement if they have completed one of these master's programmes with any additional requirements specified.
- b) Students who have completed a **law** bachelor's degree at **another Dutch research university** need to request a statement from the faculty in question that specifies which civil effect requirements they still need to meet. This statement must be submitted to the Board of Examiners, which will then assess which requirements the student still needs to meet to qualify for a civil effect statement. The abovementioned requirements for the master's programmes are the minimum requirements. Where necessary, they are expanded with other components, possibly also at a bachelor's level.
- c) Students with a **different previous education** are not eligible for a civil effect statement.
