Mathematics requirement

For this bachelor's programme, certain Dutch mathematics courses or a foreign equivalent are compulsory. The required mathematics courses are:

- **Dutch diplomas:** mathematics level VWO wiskunde B
- **Belgian diplomas:** ASO with mathematics at least 4 hours per week in the final 2 years. KSO, TSO, or BSO (BSO only if you followed the seventh year) will be evaluated individually.
- **German diplomas:** Zeugnis der Allgemeinen Hochschulreife with Grundkurs mathematics up to and including the final year
- **'International Baccalaureate' from Geneva:**
 - Mathematics Analysis and Approaches HL or SL
 - Mathematics Applications and Interpretations HL
- **European Baccalaureate:** mathematics at least 3 hours per week in the final two years + exam
- **British A-level, (I)GCE's and/or AICE:** mathematics GCE A level
- **Other countries:** a pre-university high school diploma equivalent to the Dutch VWO diploma with a sufficient amount of higher level mathematics education.

Clear your mathematics deficiency or refresh your mathematics skills

Students who do not meet the required mathematics level, have a so-called **mathematics deficiency**. The mathematics deficiency has to be cleared before the start of the bachelor's first year. To help you meet the mathematic requirement, we offer an **online preparatory math course** and an **online exam**.

Do you meet the mathematics requirement, but still want to improve your mathematics skills? You can follow the **online preparatory math course** without having to take the exam. Mathematics and statistics are essential in this programme. Our experience learns that quite a lot of students are not sufficiently prepared for the introductory courses that start right away in September. To avoid problems during those first months, we designed this online preparatory math course.

Required documents for the application procedure

Required documents for all applicants

- **A recent passport picture**
The passport picture must satisfy [certain requirements](#)
- **A copy of your valid passport or your EU/EEA identity card**
- **A certified copy of your diploma (if already obtained)**
- **A copy of your grades transcripts of the last two years of secondary school**

Documents that might be required depending on your (academic) background

- **Proof of mathematics proficiency**
If you do not meet the [required mathematics level](#), you have to clear your mathematics deficiency by taking part in the [online preparatory math course](#) and passing the [online exam](#).
- **Document(s) that demonstrate your proficiency in English**
Answer the questions concerning language requirements under '[Language requirements for English-language programmes](#)' on this webpage to find out if you need to provide additional documentation. The outcome of your answers will indicate which documents you can use to prove your proficiency.

Please note:

Only **complete** registrations will be taken into consideration. All documents must be in **Dutch, English or German**.

Language requirements for English-language programmes

As English is the language of instruction in this study programme, it is essential that your English language skills are good enough for you to undertake intensive and challenging academic courses that are taught and examined in English.

Answer the questions below to find out if you meet the language requirements.

Do you hold a Dutch pre-university education (VWO) diploma?

YesNoUndo

How do we assess your application?

When you want to apply or are applying to this study programme, it is useful to know how we assess your application. If you submit all required documents before the application deadline and if you meet the admission criteria (diploma requirement and mathematics requirement), you will be admitted. If you do not meet the criteria, your application will be rejected. We will inform you via e-mail.

More information about the assessment of applications can be found in the Bachelor Education and Examination Regulations (EER) 2023-2024

Additional info

Possibility of enrolment in the second year and exemptions for the entire first year

If you have successfully completed courses equivalent to the first year of Business Engineering (at the same university level), you may qualify for exemptions. Students, who switch from another university to Business Engineering, cannot be exempted from parts of the first-year programme (so for separate, individual courses of the first-year of the bachelor study programme concerned), but only from the entire first-year of the bachelor's study programme. To use this possibility, you must submit a request for exemptions to the Board of Examiners. If your request has been approved, you can enrol in the second year.

Please note that the deadline is **1 July 2024**: if we have not received correct and completely filled out forms before this date, your request will not be taken into account.

More information regarding [exemptions and how to apply for them](#).

Handling fee

Prospective students applying for this study programme who received their prior education in a non-EU/EEA country will have to pay a handling fee.

More information about the (payment for the) [handling fee](#).
